(57) **CLAIM**

The ornamental design for a control panel for coating machine, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a control panel for coating machine of the present invention.

FIG. 2 is a rear view of the control panel for coating machine of FIG. 1.

FIG. 3 is a top plan view of the control panel for coating machine of FIG. 1.

FIG. 4 is a bottom view of the control panel for coating machine of FIG. 1.

FIG. 5 is a right side view of the control panel for coating machine of FIG. 1.

FIG. 6 is a left side view of the control panel for coating machine of FIG. 1.

FIG. 7 is a sectional view taken along the line 7-7 of the control panel for coating machine of FIG. 6; and,

FIG. 8 is a reference view of the control panel for coating machine of FIG. 1 in use, wherein the control panel is connected to a coating machine.

The features shown in broken lines depict environmental subject matter only and form no part of the claimed design. The lines having alternating long and short segments define bounds of the claimed design and form no part thereof.

The gray shadings indicate color contrast.

1 Claim, 8 Drawing Sheets
