(57) **CLAIM**

The ornamental design for a display panel or screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display panel or screen with a first image of an animated graphical user interface showing our new design; and,

FIG. 2 is a second image thereof.

The even-dash broken lines within the graphical user interface and the even-dash broken lines of an element of the graphical user interface illustrating portions of the display panel or screen form no part of the claimed design.

The appearance of the image transitions between the images shown in FIGS. 1 and 2. The process or period in which an image transitions to another forms no part of the claimed design.

1 Claim, 2 Drawing Sheets
