(57) **CLAIM**

The ornamental design for a display screen with an animated graphical user interface, as shown and described.

DESCRIPTION

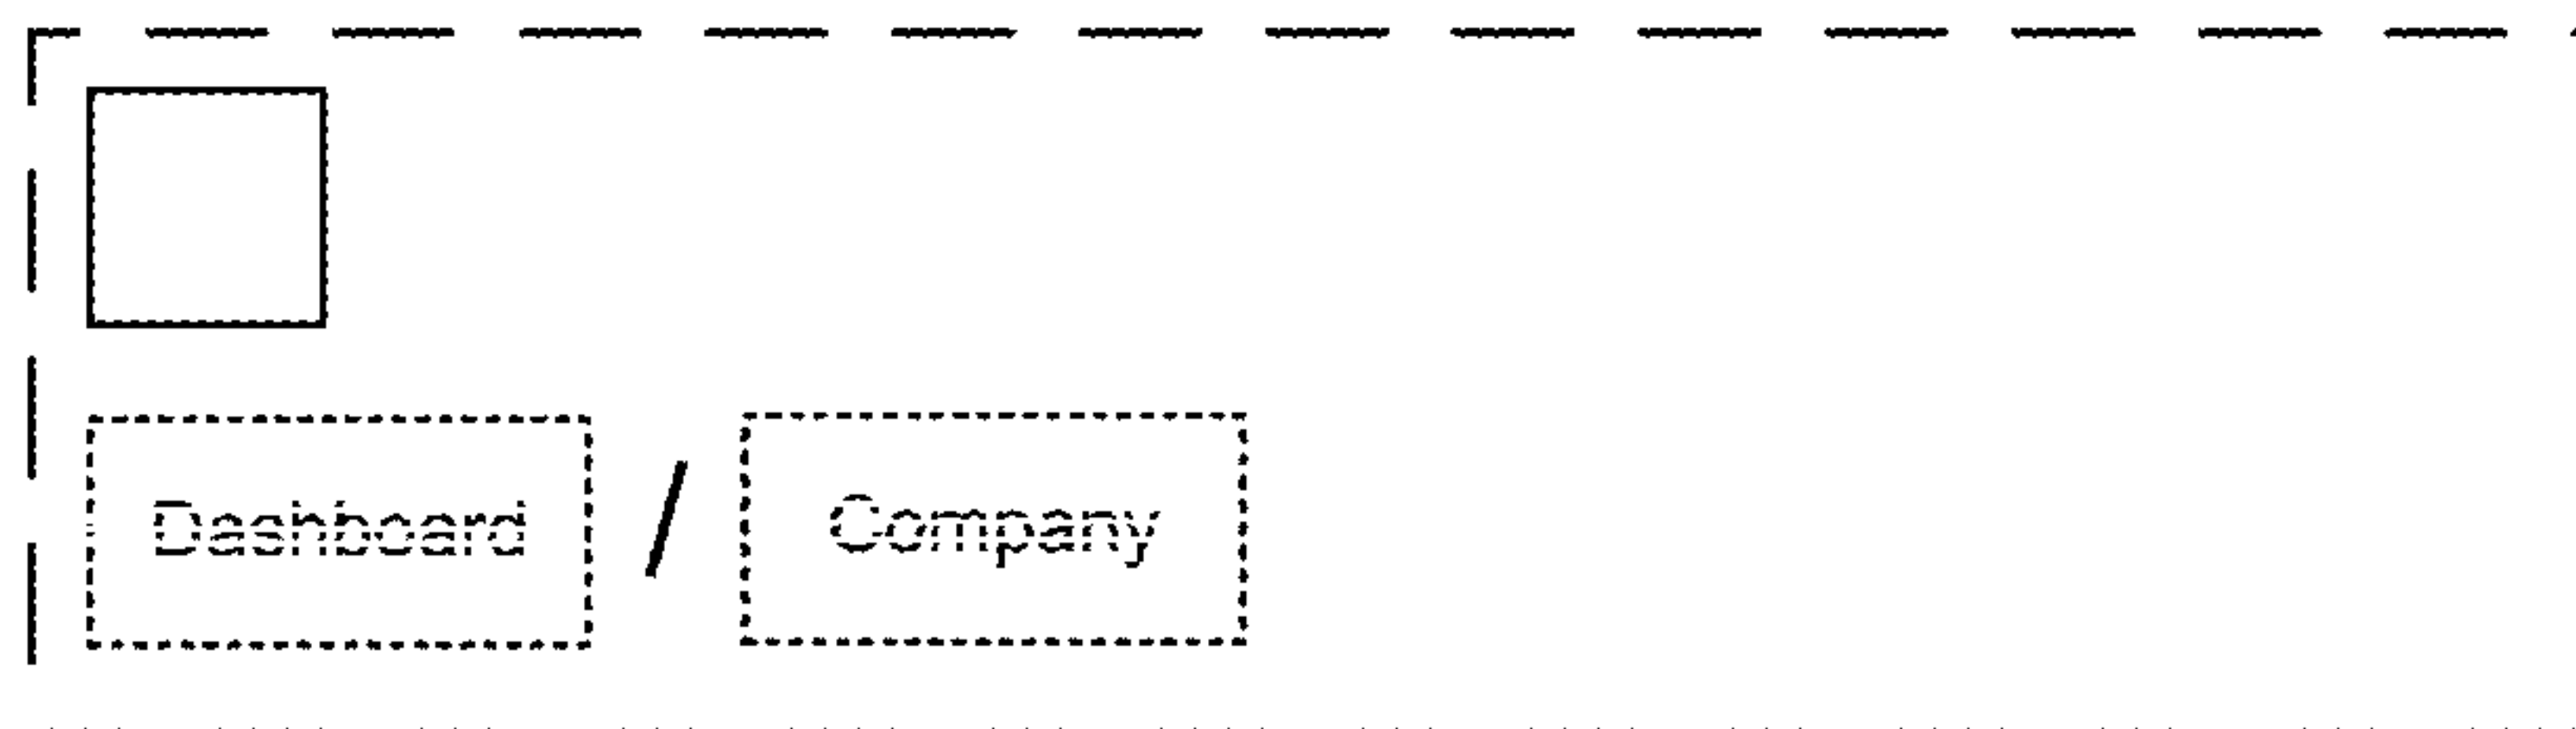

FIG. 1 is a view of a first state of an animated graphical user interface according to our new design.
 FIG. 2 is a view of second state of an animated graphical user interface according to our new design; and,
 FIG. 3 is a view of a third state of an animated graphical user interface according to our new design.
 The animated graphical user interface transitions between the states shown in FIGS. 1-3. The process or period in which the animated graphical user interface transitions from one state to another state forms no part of the claimed design.
 The outermost broken line illustrates a portion of the display screen. The remaining broken lines, including the rectangles and all text, illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
