(57) **CLAIM**

The ornamental design for a viewfinder display screen for digital camera with graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a rear elevational view of a viewfinder display screen for digital camera with graphical user interface showing my new design;

FIG. 2 is an enlarged view of the first image in a sequence for a viewfinder display screen for digital camera with graphical user interface;

FIG. 3 is an enlarged view of the second image thereof; and, FIG. 4 is an enlarged view of the third image thereof.

The appearance of the transitional image sequentially transitions between FIGS. 2-4. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken line showing of the digital camera illustrates the environment of the claimed design and forms no part thereof. The broken lines within the viewfinder display screen in the drawings illustrate portions of the graphical user interface which form no part of the claimed design.
