(57) **CLAIM**

The ornamental design for a medical device receiver and
display in combination, as shown and described.

FIG. 1 is a top perspective view of an embodiment of a
medical device receiver and display in combination with a
cover;

FIG. 2 is a front view of the medical device receiver and
display in combination with a cover shown in FIG. 1;

FIG. 3 is a rear view of the medical device receiver and
display in combination with a cover shown in FIG. 1;

FIG. 4 is a right side view of the medical device receiver and
display in combination with a cover shown in FIG. 1;

FIG. 5 is a left side view of the medical device receiver and
display in combination with a cover shown in FIG. 1;

FIG. 6 is a top view of the medical device receiver and
display in combination with a cover shown in FIG. 1;

FIG. 7 is a bottom view of the medical device receiver and
display in combination with a cover shown in FIG. 1;

FIG. 8 is a top perspective view of the medical device
receiver and display in combination of FIG. 1, shown
without the cover;

FIG. 9 is a front view of the medical device receiver and
display in combination of FIG. 1, shown without the cover;

FIG. 10 is a rear view of the medical device receiver and
display in combination of FIG. 1, shown without the cover;

FIG. 11 is a right side view of the medical device receiver
and display in combination of FIG. 1, shown without the
cover;

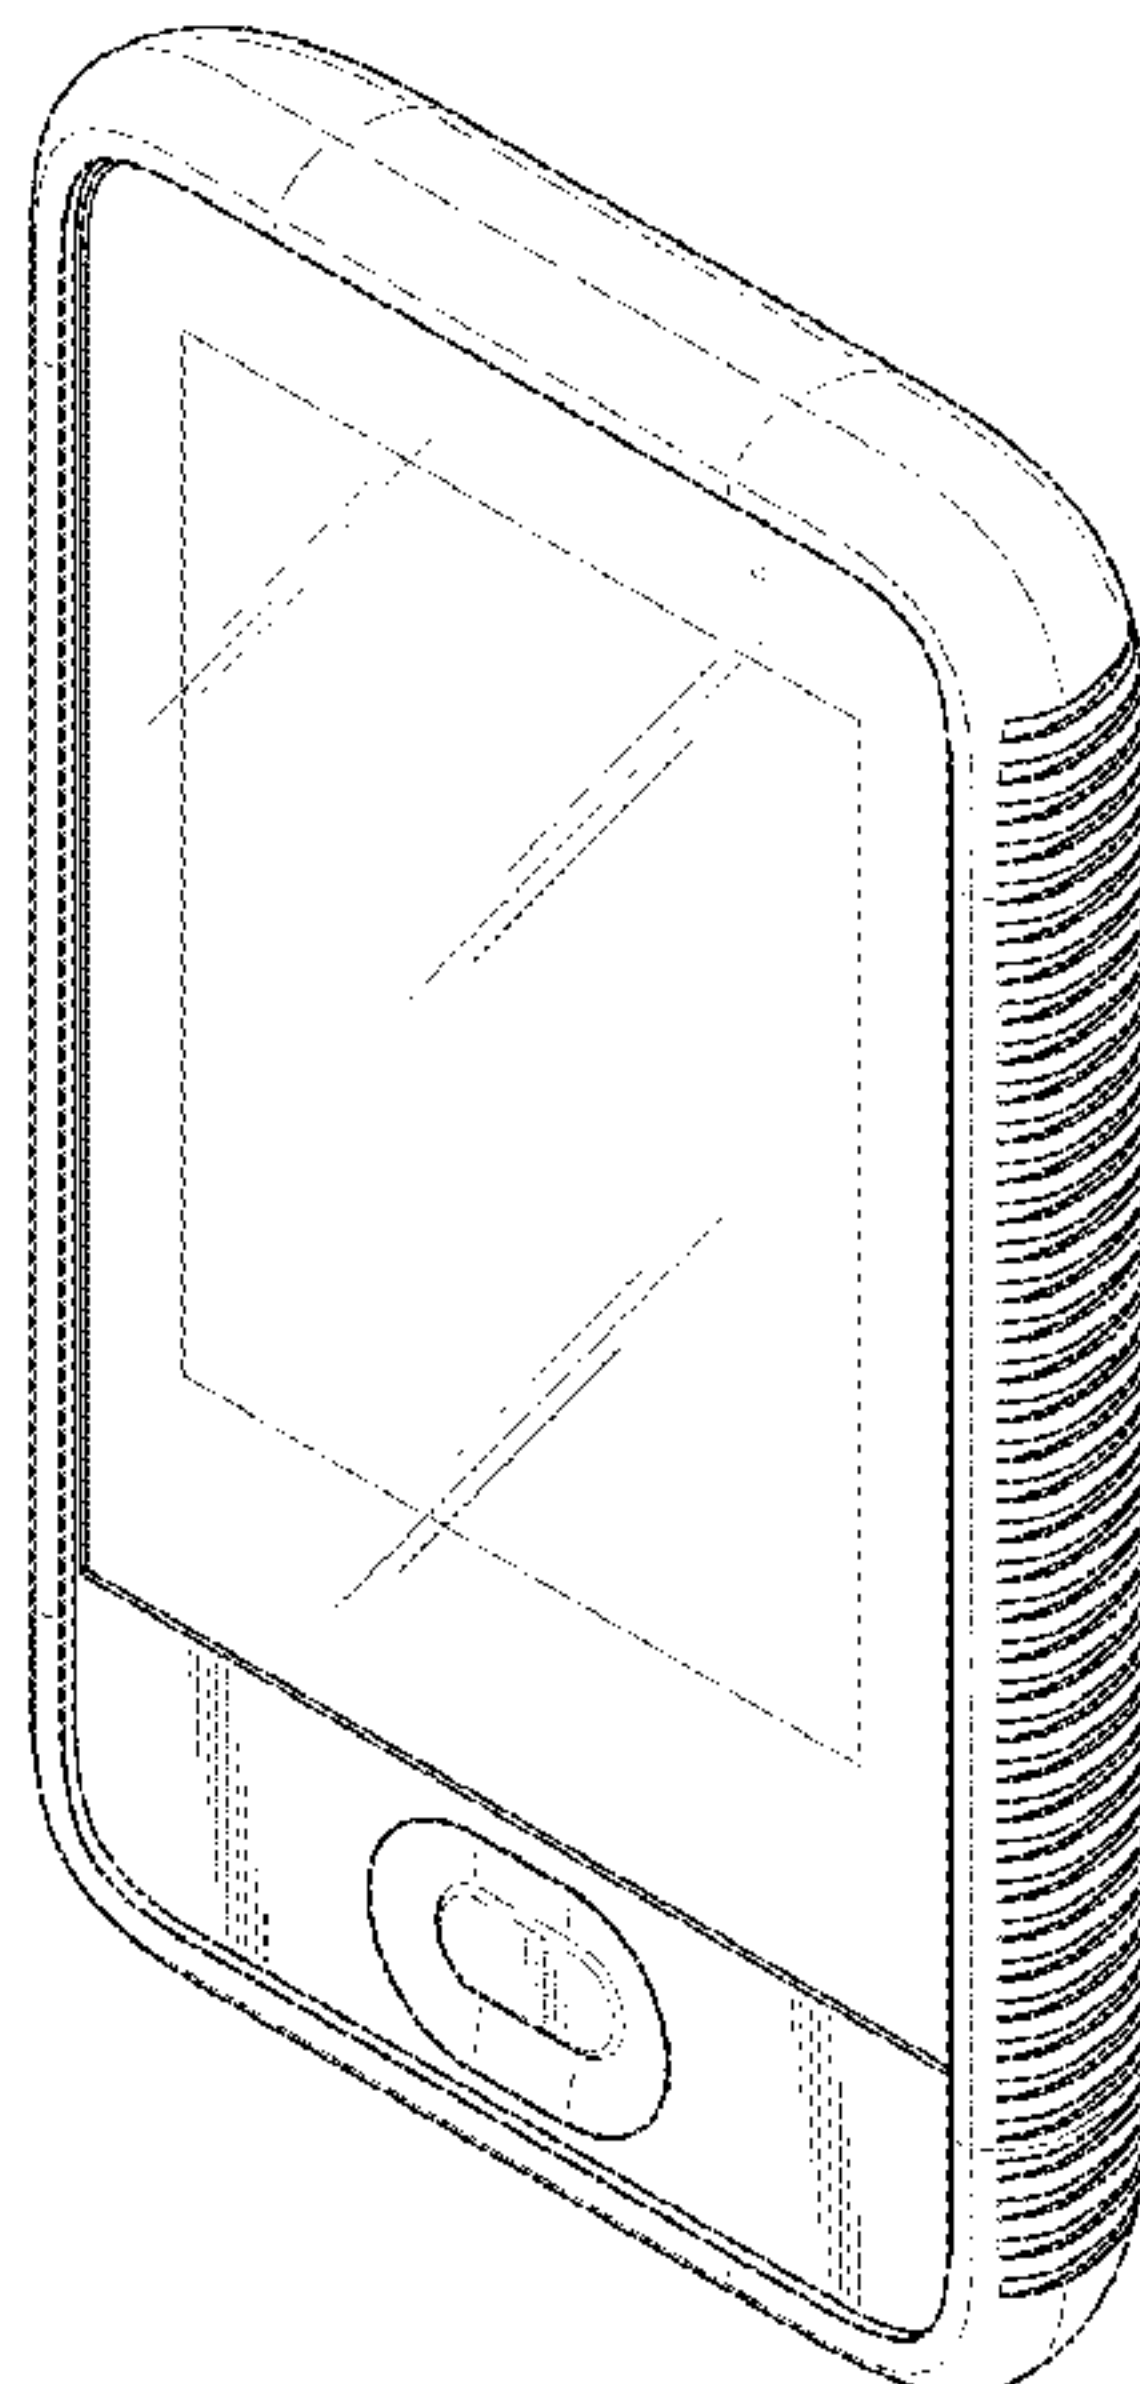

FIG. 12 is a left side view of the medical device receiver and
display in combination of FIG. 1, shown without the cover;

FIG. 13 is a top view of the medical device receiver and
display in combination of FIG. 1, shown without the cover;
and,

FIG. 14 is a bottom view of the medical device receiver and
display in combination of FIG. 1, shown without the cover.

The broken lines illustrate portions of the medical device
receiver and display in combination that form no part of the
claimed design.
