(57) **CLAIM**

We claim the ornamental design for a joystick with top display, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a joystick with top display showing our new design; FIG. 2 is a top plan view thereof; FIG. 3 is a left side elevation view thereof; FIG. 4 is a right side elevation view thereof; FIG. 5 is a front side elevation view thereof; and, FIG. 6 is a rear side elevation view thereof.

The bottom side of the joystick with top display design is flat and non-ornamented and not shown, and forms no part of the claimed design.

The broken lines in the FIGURES are directed to environment and are for illustrative purposes only; the broken lines form no part of the claimed design. The broken lines in FIGS. 1-6 show portions of the joystick with top display, including displayed elements on the top display of the joystick handle, protective casing below the joystick handle, and a base having a light bezel below the protective casing.
