(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image in a series of images for a display screen with animated graphical user interface showing our new design;

FIG. 2 is a second image in a series of images for a display screen with animated graphical user interface showing our new design;

FIG. 3 is a third image in a series of images for a display screen with animated graphical user interface showing our new design;

FIG. 4 is a fourth image in a series of images for a display screen with animated graphical user interface showing our new design;

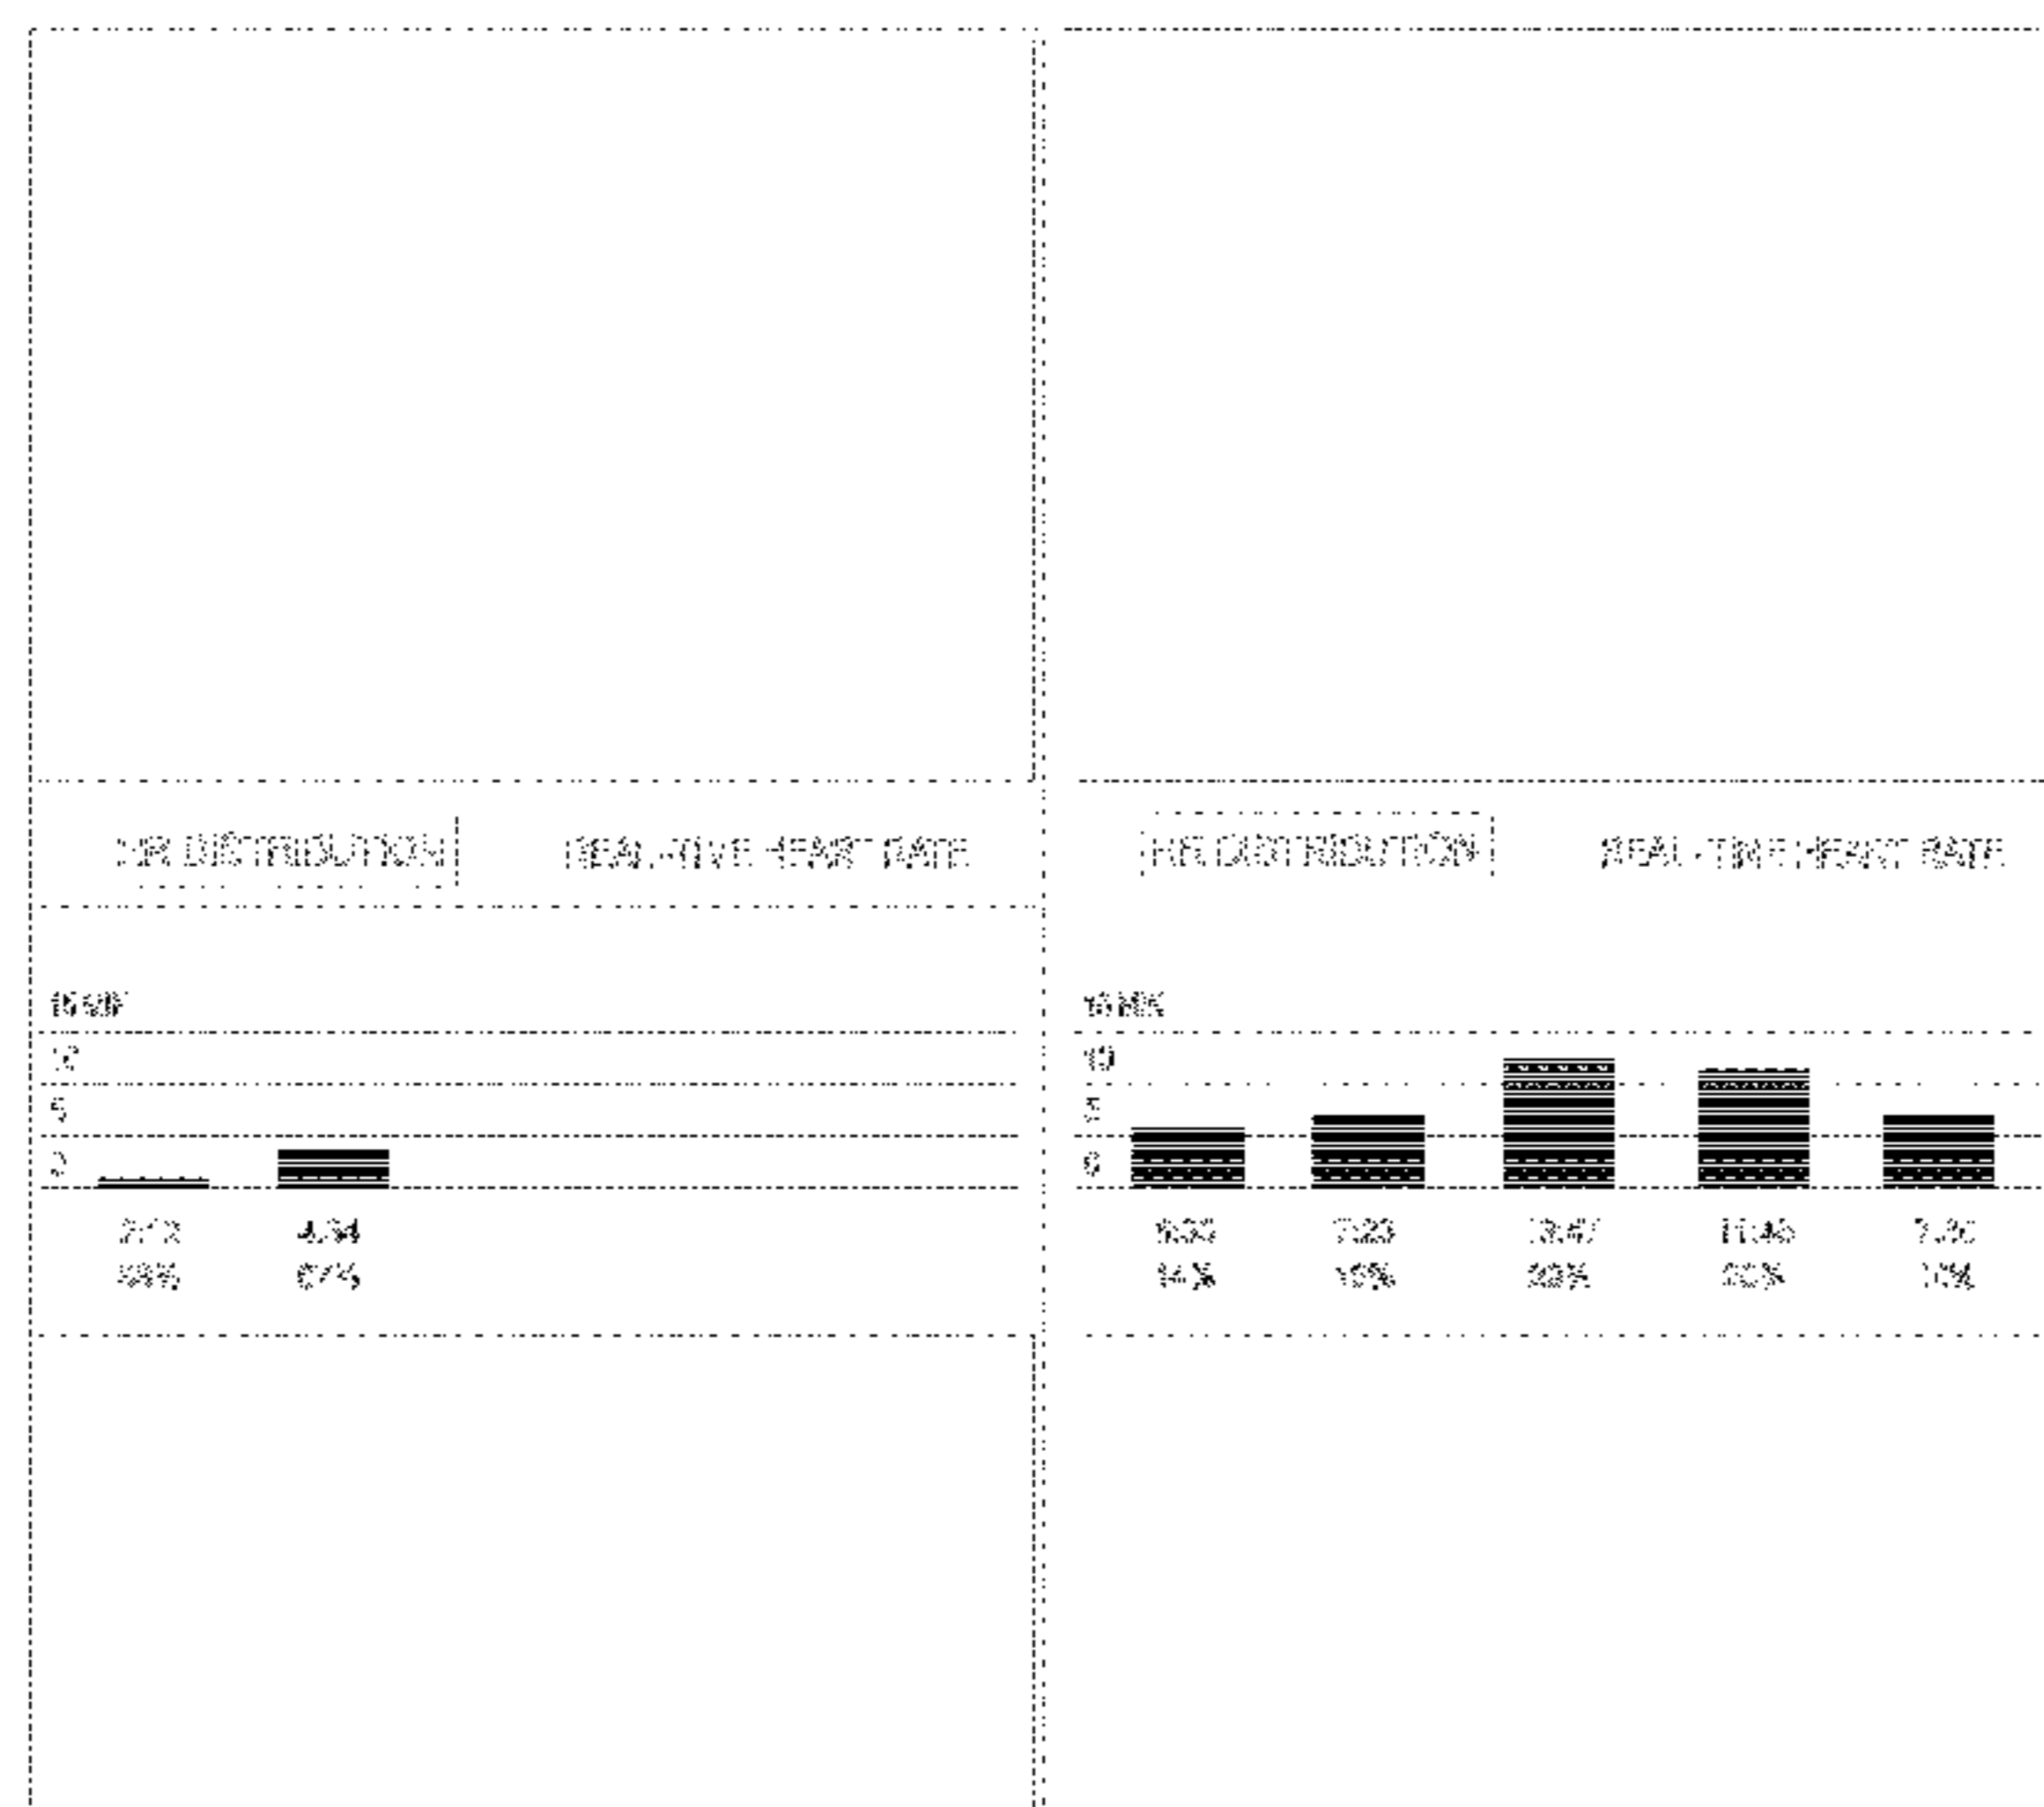

FIG. 5 is a fifth image in a series of images for a display screen with animated graphical user interface showing our new design;

FIG. 6 is a sixth image in a series of images for a display screen with animated graphical user interface showing our new design; and,

FIG. 7 is a seventh image in a series of images for a display screen with animated graphical user interface showing our new design.

The appearance of the graphical user interface transitions between the images shown in FIGS. 1-7. The process or period in which one image transitions to another forms no part of the claimed design. The broken lines shown in the figures illustrate portions of the display screen with animated graphical user interface that form no part of the claimed design.
