(57) **CLAIM**

The ornamental design for a digital camera display screen with transitional graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a rear elevational view of a digital camera showing a first image of a digital camera display screen with transitional graphical user interface showing our new design; FIG. 2 is a rear elevational view thereof showing a second transitional image of the digital camera display screen with transitional graphical user interface, which transitions from said first image;

FIG. 3 is a front elevational view of the digital camera;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a left side elevational view thereof; and,

FIG. 7 is a right side elevational view thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2.

The process or period in which one image transitions to another image forms no part of the claimed design.

The broken line showing of the digital camera display screen with transitional graphical user interface is for the purpose of illustrating environmental subject matter and forms no part of the claimed design.
