(57) **CLAIM**

The ornamental design for a bar mount for portable camera, as shown and described.

DESCRIPTION

FIG. 1 is a front, right, and top perspective view of a bar mount for portable camera showing our new design, with the bar mount in a closed position;
FIG. 2 is a front view of the bar mount for portable camera with the bar mount in a closed position;
FIG. 3 is a rear view of the bar mount for portable camera with the bar mount in a closed position;
FIG. 4 is a right side view of the bar mount for portable camera with the bar mount in a closed position;
FIG. 5 is a rear view of the bar mount for portable camera with the bar mount in a closed position;
FIG. 6 is a top view of the bar mount for portable camera with the bar mount in a closed position;
FIG. 7 is a bottom view of the bar mount for portable camera with the bar mount in a closed position;
FIG. 8 is a front, right, and top perspective view of the bar mount for portable camera with the bar mount in an open position;
FIG. 9 is a front view of the bar mount for portable camera with the bar mount in an open position;
FIG. 10 is a rear view of the bar mount for portable camera with the bar mount in an open position;
FIG. 11 is a right side view of the bar mount for portable camera with the bar mount in an open position;
FIG. 12 is a rear view of the bar mount for portable camera with the bar mount in an open position;
FIG. 13 is a top view of the bar mount for portable camera with the bar mount in an open position; and,
FIG. 14 is a bottom view of the bar mount for portable camera with the bar mount in an open position.
The broken lines in the drawings depict portions of the bar mount for portable camera that form no part of the claimed design.
