(57) **CLAIM**

The ornamental design for a carrying device set, as shown and described.

DESCRIPTION

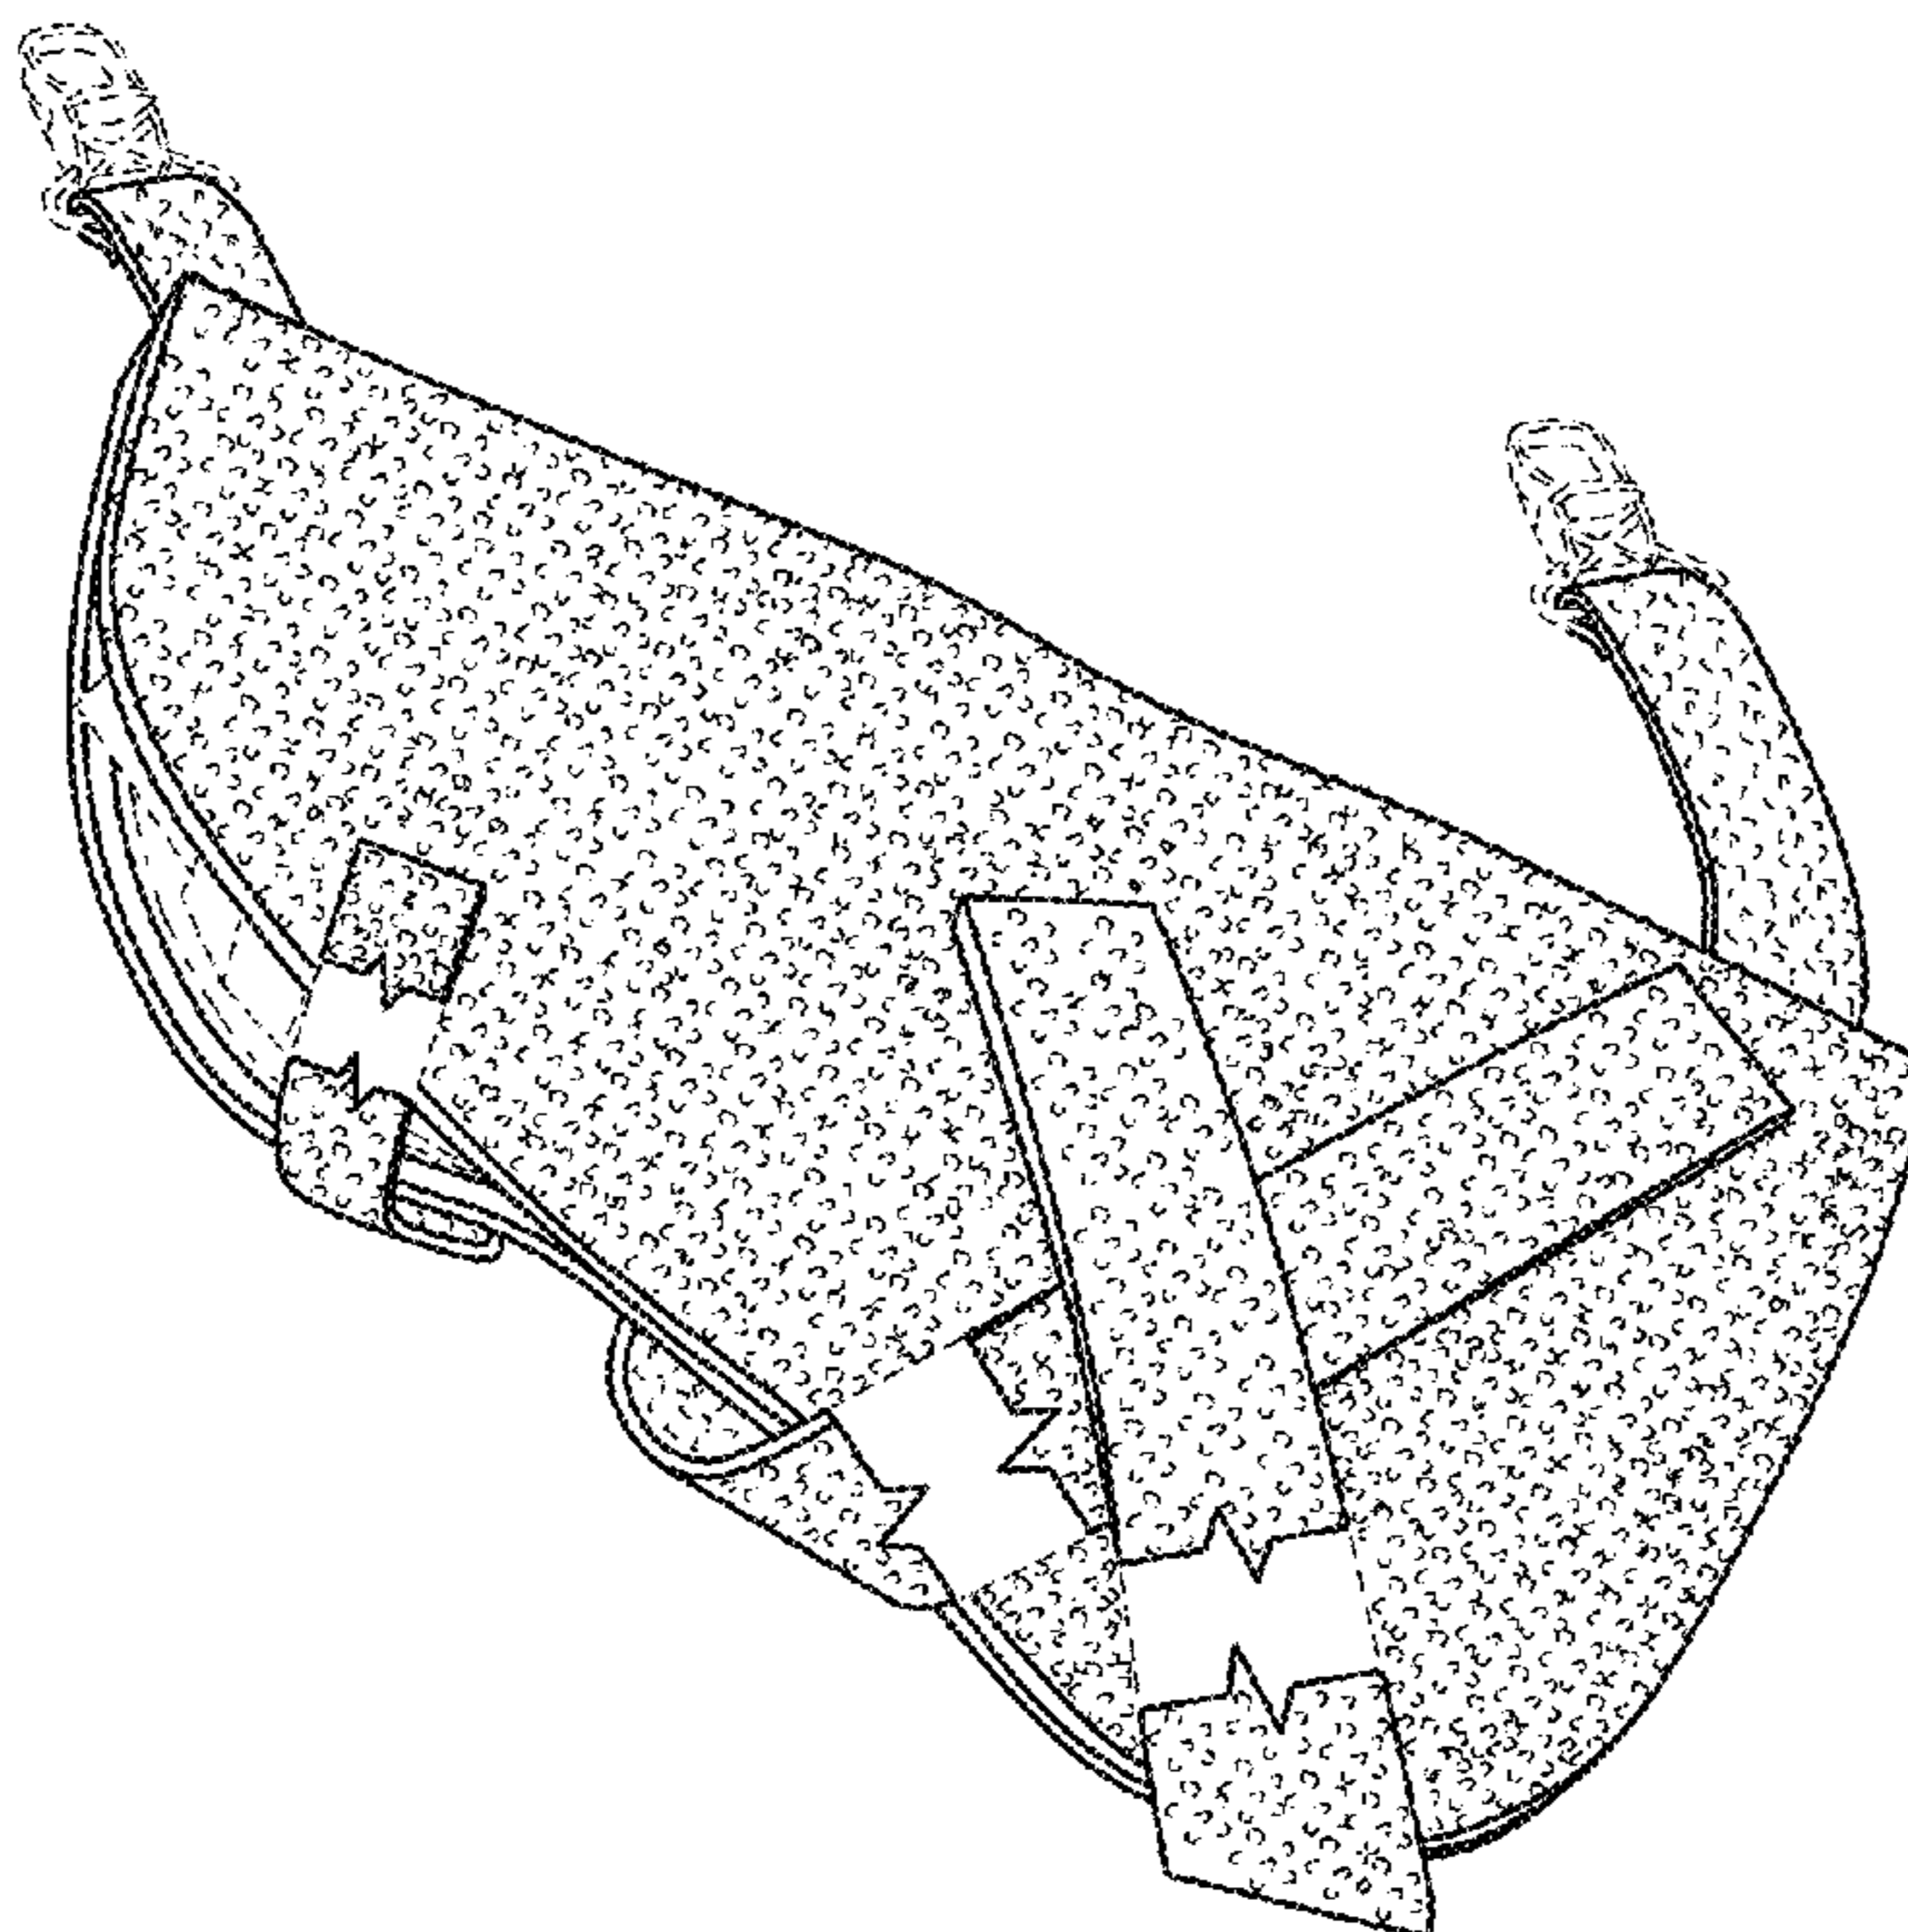

FIG. 1 is a front perspective view of a carrying device set; FIG. 2 is a front elevation view of FIG. 1; FIG. 3 is a rear elevation view of FIG. 1; FIG. 4 is a left side elevation view of FIG. 1; FIG. 5 is a right side elevation view of FIG. 1; FIG. 6 is a top plan view of FIG. 1; FIG. 7 is a bottom plan view of FIG. 1; and, FIG. 8 is a perspective view of FIG. 1, shown in use.

The equal-sized broken lines showing an object contained within the carrying device set in FIG. 8 depicts environmental subject matter that forms no part of the claimed design, while the remaining equal-sized broken lines shown in the drawings depict portions of the carrying device set that form no part of the claimed design. The uneven-sized broken lines adjacent an opening of a carrying portion of the carrying device set represents the bounds of the claimed design.

The use of stippling indicates a contrasting material with the adjacent carrying portion of the carrying device set.

The carrying device set is shown with symbolic breaks in the lengths of its straps. The appearance of any portion of the article between the break lines forms not part of the claimed design.
