(57) **CLAIM**

The ornamental design for a polishing pad, as shown and  
described.

**DESCRIPTION**

FIG. 1 is a perspective view of the polishing pad in accor-  
dance with the present invention, with an enlarged portion  
exploded out therefrom;  
FIG. 2 is a workpiece-facing plan view of the polishing pad  
shown in FIG. 1, with an enlarged portion exploded out  
therefrom;  
FIG. 3 is an opposite plan view from that of FIG. 2 of the  
polishing pad shown in FIG. 1; and,  
FIG. 4 is a side elevation of the polishing pad shown in FIG.  
1.  
The broken lines form no part of the claimed design. The  
pattern designations shown in the figures are not intended to  
claim the specific patterns but are instead intended to claim  
that the pattern in the outer ring (e.g., FIGS. 1 and 2) is  
different than the fibrous pattern in the center and backside  
of the pad (e.g., FIGS. 1-3).
