(57) **CLAIM**

The ornamental design for an illuminated augmented reality input device, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of an illuminated augmented reality input device showing our new design; FIG. 2 is a right side view thereof; FIG. 3 is a left side view thereof; FIG. 4 is a front view thereof; FIG. 5 is a rear view thereof; FIG. 6 is a top view thereof; and, FIG. 7 is a bottom view thereof. The radiating lines in the figures represent illumination emanating from the end portion of the device. The broken lines seen in FIGS. 1 and 5 depict portions of the illuminated augmented reality input device that form no part of the claimed design.
