(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image of a front view of a display screen with graphical user interface showing our new design; and, FIG. 2 is a second image thereof.

The broken lines represent a display screen and environmental element and form no part of the claim. The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
