(57) **CLAIM**

The ornamental design for a manifold for food or ware washing, deglazing and defrosting system, as shown and described.

DESCRIPTION

FIG. 1 is front perspective view of a manifold showing my new design in a horizontal position of use on the front of a food or ware washing, deglazing and defrosting system such that jet nozzles of the manifold are rotated slightly downward into a tank of the system, the system shown in broken lines forming no part of the invention.

FIG. 2 is a front view of the manifold shown separately for clarity of illustration;

FIG. 3 is a rear elevation view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a left side elevation view thereof, it being understood that the right side elevation view is substantially a mirror image of the same; and,

FIG. 7 is a front perspective view of the manifold thereof shown in a vertical position of use on the front of a food or ware washing, deglazing and defrosting system such that jet nozzles of the manifold are rotated slightly downward into a tank of the system, the system shown in broken lines forming no part of the invention.
