DESCRIPTION

FIG. 1 is a front, right-side perspective view of a bag in a first, open configuration, according to the present design; FIG. 2 is a back, right-side perspective view thereof; FIG. 3 is a front view thereof; FIG. 4 is a side view thereof; FIG. 5 is a front, right-side perspective view of the bag in a second, at least partially closed configuration, according to the present design; and, FIG. 6 is a top thereof.

The evenly spaced broken lines shown in the drawings are directed to environment, are for informational purposes only, and form no part of the claimed design.

The long and short broken lines are boundary lines, which define bounds of the claimed design. These boundaries do not exist in reality in the article embodying the design. It is understood that the claimed design extends to these boundaries but does not include the boundaries.

The surface shading on the claimed portion is provided only to indicate the character and/or any contour or curvature of the surfaces. They do not indicate color, texture, markings that actually exist thereon, indicia, graphic representations, surface treatment, or any other ornamentation applied to the article.
