(57) **CLAIM**

The ornamental design for a digital camera electronic viewfinder display screen with graphical user interface and digital camera display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is an enlarged view of the first image in a sequence for the digital camera electronic viewfinder display screen with graphical user interface of the first embodiment, showing the graphical user interface separately for ease of illustration;

FIG. 2 is an enlarged view of the second image thereof;

FIG. 3 is an enlarged view of the third image thereof;

FIG. 4 is a rear elevational view of the digital camera electronic viewfinder display screen with graphical user interface and digital camera display screen with graphical user interface showing the graphical user interface of FIG. 1 on the camera electronic viewfinder display screen and digital camera display screen;

FIG. 5 is an enlarged view of the first image in a sequence for the digital camera electronic viewfinder display screen with graphical user interface of the second embodiment, showing the graphical user interface separately for ease of illustration;

FIG. 6 is an enlarged view of the second image thereof;

FIG. 7 is an enlarged view of the third image thereof; and,

FIG. 8 is a rear elevational view of the digital camera electronic viewfinder display screen with graphical user interface and digital camera display screen with graphical user interface showing the graphical user interface of FIG. 5 on the camera electronic viewfinder display screen and digital camera display screen.

The appearance of the transitional image sequentially transitions between FIGS. 1-3 in a first embodiment and between FIGS. 5-7 in a second embodiment. The process or period in which one image transitions to another image forms no part of the claimed design.

(Continued)

The broken line showing of the portions of the digital camera in FIG. 4 and FIG. 8 is for the purpose of illustrating environment and forms no part of the claimed design. The broken line showing portions of the graphical user interface illustrate portions of the article and form no part of the claimed design.

1 Claim, 8 Drawing Sheets
