(57) **CLAIM**

The ornamental design for a disposable surgical gown, as shown and described.

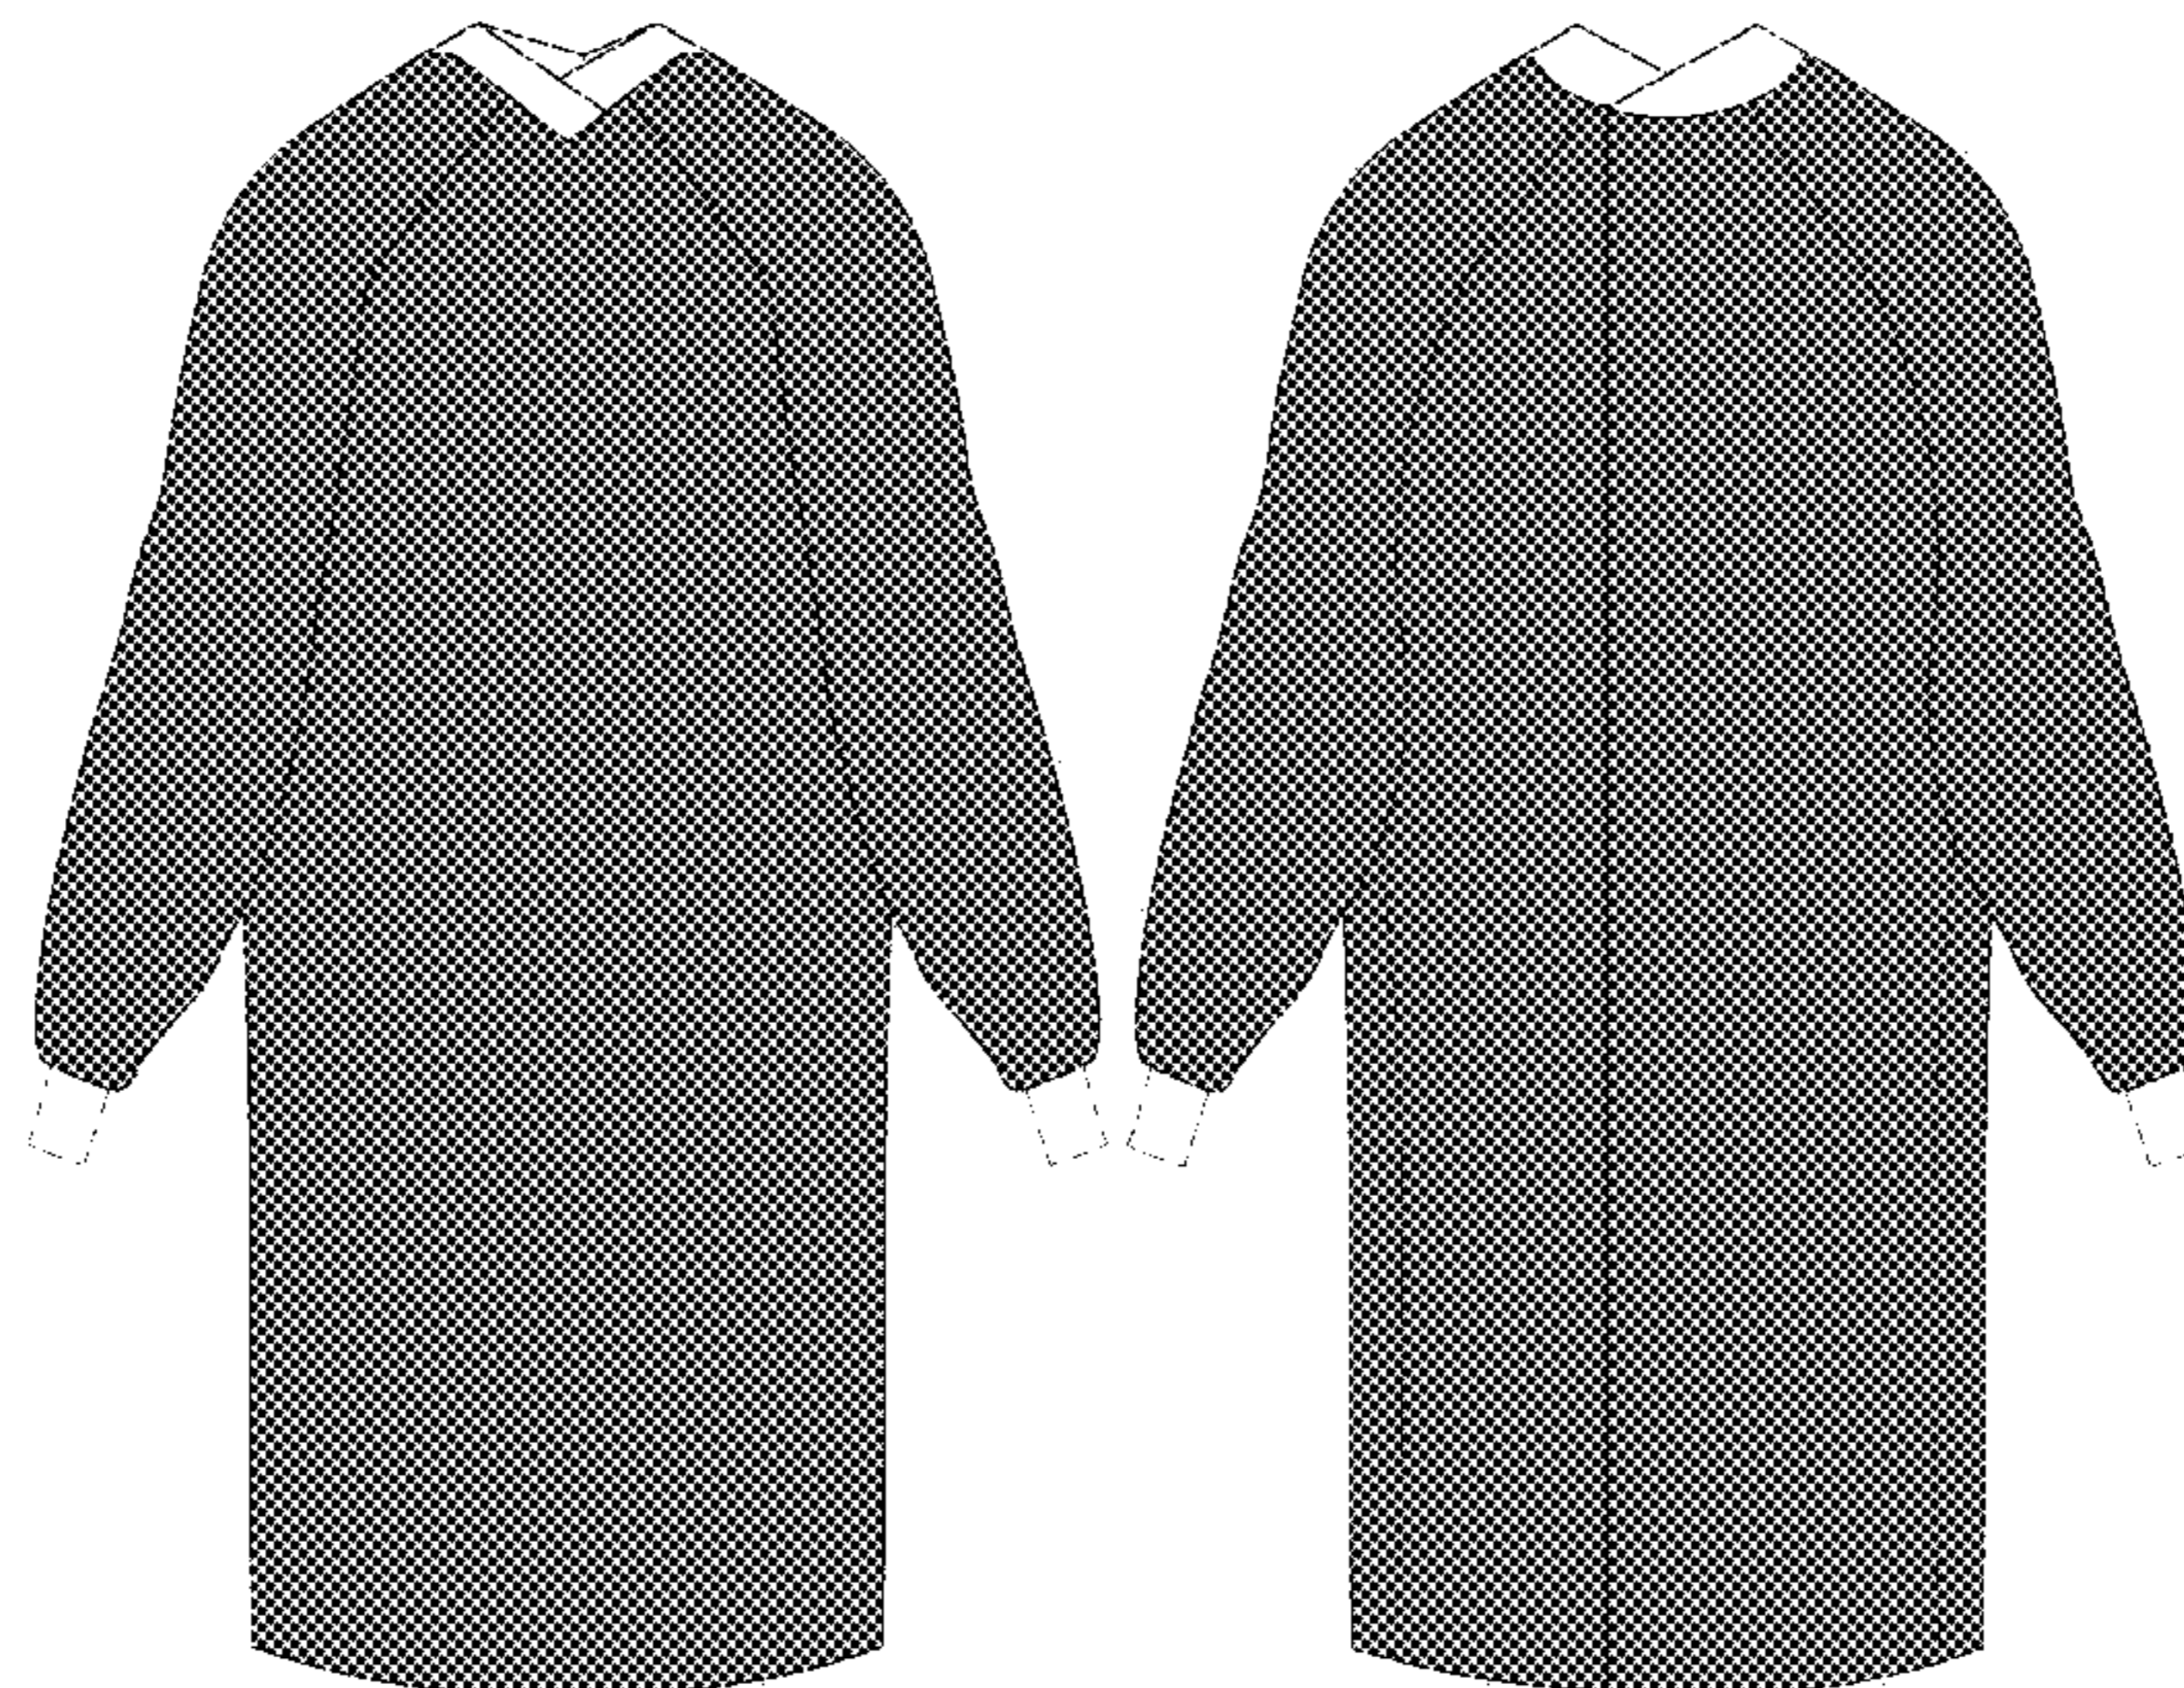

DESCRIPTION

The patent or application file contains a least one drawing executed in color. Copies of this patent or patent application publication with color drawings will be provided by the Office upon request and payment of the necessary fee.
FIG. 1 is a front view of a disposable surgical gown according to the present design, particularly illustrating a gray front panel and sleeves and a white collar having a v-neck shape;
FIG. 2 is a rear view of the disposable surgical gown of FIG. 1 when the disposable surgical gown is secured, particularly illustrating gray rear panels and sleeves and a white collar having a tapered end;
FIG. 3 is a top view of the disposable surgical gown of FIGS. 1 and 2; and,
FIG. 4 is a rear view of the disposable surgical gown of FIG. 1 when the disposable surgical gown is not secured, particularly illustrating that the white collar has two tapered ends.
The broken lines in the figures represent unclaimed environmental subject matter illustrating the design in use and form no part of the claimed design. For example, the broken lines including the cuffs of the disposable surgical gown are included for the purpose of illustrating environmental aspects of disposable surgical gown and form no part of the claimed design.
