See application file for complete search history.

FIG. 1 is a front-top perspective view of an automotive sun visor having display device in which the display device is in an extended position;
FIG. 2 is a front view thereof, with the rear view being a mirror image thereof;
FIG. 3 is a left-side view thereof, with the right-side view being a mirror image thereof;
FIG. 4 is a top view thereof;
FIG. 5 is a bottom view thereof;
FIG. 6 is a rear-bottom perspective view thereof;
FIG. 7 is a rear-bottom perspective view of the automotive sun visor having display device in which the display device is in a retracted position; and,
FIG. 8 is a left-side view of the automotive sun visor having display device in which an image, such as speed information, is displayed on the display device, the image forming no part of the claimed design.

The broken lines shown in the drawings illustrate portions of the automotive sun visor having display device that form no part of the claimed design.
