(57) **CLAIM**

The ornamental design for a tire surface, is shown and described in FIG. 1 to FIG. 4.

DESCRIPTION

FIG. 1 is the front elevational view of a tire, for which the other sides, include rear, top and bottom elevational views being identical thereto; The portion as defined by marker lines 3-3 is showed in FIG. 3 (portion enlarged view).

FIG. 2 is a left side elevational view thereof, the opposite side elevational view being identical thereto;

FIG. 3 is an enlarged fragmentary top elevational view thereof the portion as defined by marker lines 3-3 in FIG. 1; and,

FIG. 4 is a perspective view of a tire showing the new design, it being understood that the pattern repeats uniformly throughout the circumference of the tread.

There is no claim of right in the inner-side surface and sidewall of the tire.
