(57) **CLAIM**

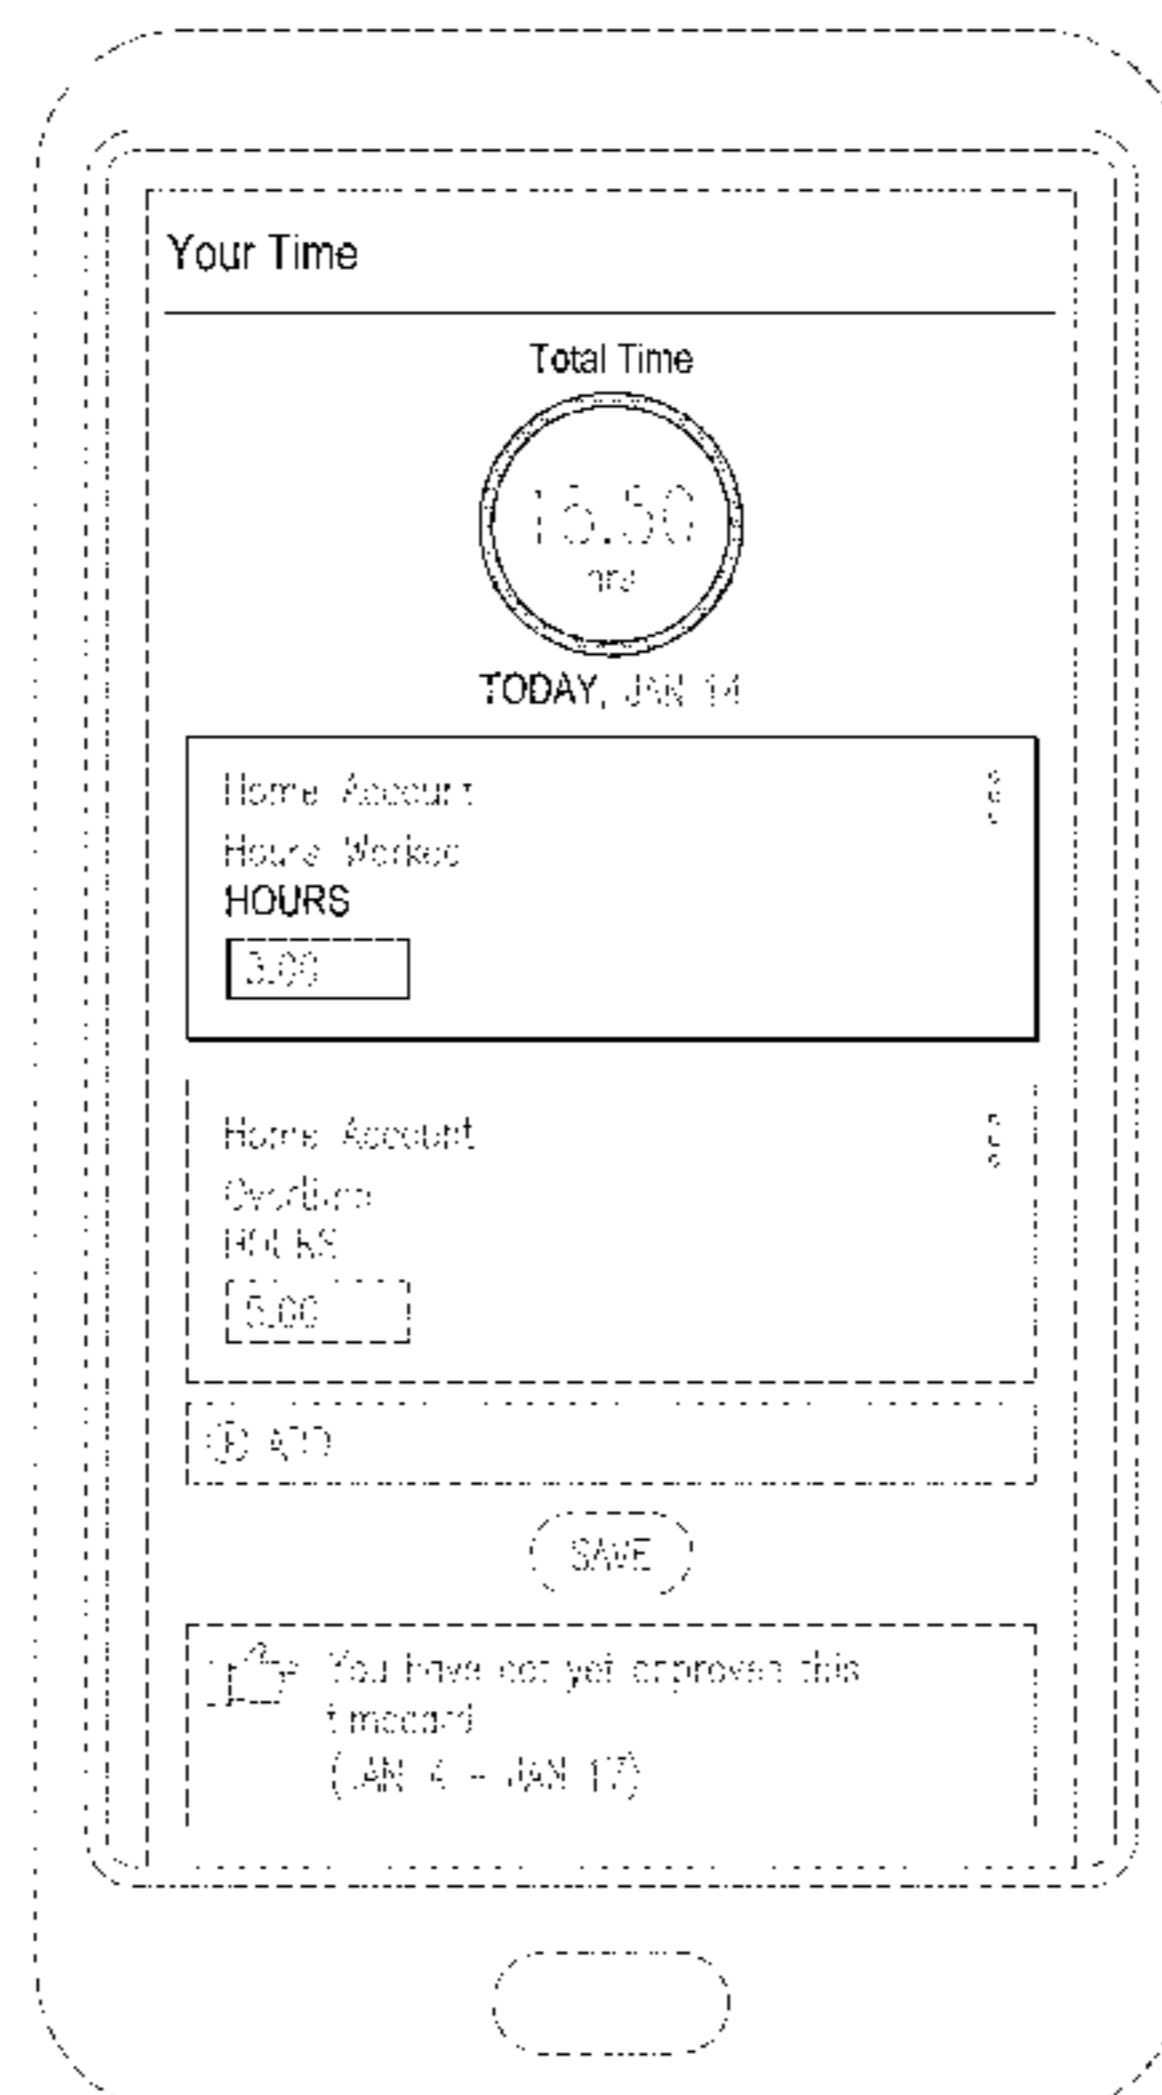

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface; and, FIG. 2 is another front view of a display screen with graphical user interface, shown with a different broken line disclosure.

The outermost broken lines and the broken line showing of the lower rounded feature illustrate an electronic device. The dual set of broken lines at the periphery of the figure illustrate a display screen. The broken line showing of text, numbers, icons and boxes illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
