(57) **CLAIM**

The ornamental design for a display screen for digital camera with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a top, rear and left side perspective view of a display screen for digital camera with graphical user interface showing my new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a left side elevational view thereof;

FIG. 7 is a right side elevational view thereof;

FIG. 8 is an enlarged view of the first image in a sequence for a display screen for a digital camera with graphical user interface;

FIG. 9 is an enlarged view of the second image thereof;

FIG. 10 is an enlarged view of the third image thereof; and,

FIG. 11 is an enlarged view of a portion defined between arrowheads 11-11 of FIG. 9.

The broken line showing of the digital camera illustrates the environment of the claimed design and forms no part thereof. The broken lines within display screen in the drawings illustrate portions of the graphical user interface which form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 8-10. No ornamental aspects are associated with the process or period in which one image transitions to another image.

1 Claim, 11 Drawing Sheets
