(Continued)

FIG. 1 is a top front and right side isometric view of a first embodiment of a pistol cartridge in accordance with the new design in which the pistol cartridge has a bullet formed with a central cavity and two lateral bores, which cavity and bores have been filled with a polymeric filler of unspecified color; FIG. 2 is a bottom plan view thereof;

FIG. 3 is a top plan view thereof;

FIG. 4 is a right side elevation view thereof, the left side view being a mirror image thereof;

FIG. 5 is a rear and left side perspective view thereof; and

FIG. 6 is a front elevation view thereof, the rear view being a mirror image view thereof.

FIG. 7 is a top front and right side isometric view of a second embodiment of a pistol cartridge in accordance with the new design in which the pistol cartridge has a bullet formed with a central cavity and two lateral bores, which cavity and bores have been filled with a polymeric filler of unspecified color; FIG. 8 is a bottom plan view thereof;

FIG. 9 is a top plan view thereof;

FIG. 10 is a right side elevation view thereof, the left side view being a mirror image thereof;

FIG. 11 is a rear and left side perspective view thereof; and,

FIG. 12 is a front elevation view thereof, the rear view being a mirror image view thereof.
