(57) **CLAIM**

The ornamental design for a pistol cartridge, as shown and described.

DESCRIPTION

FIG. 1 is a top front and right side isometric view of a first embodiment of a pistol cartridge in accordance with the new design in which a pistol cartridge has a bullet and a casing, in which the bullet is formed with a central cavity and two lateral bores, which cavity and bores have been filled with a polymeric filler of unspecified color, and the bullet and casing are shown in phantom outline;

FIG. 2 is a bottom plan view thereof;

FIG. 3 is a top plan view thereof;

FIG. 4 is a right side elevation view thereof, the left side view being a mirror image thereof;

FIG. 5 is a rear and left side perspective view thereof; and
FIG. 6 is a front elevation view thereof, the rear view being a mirror image view thereof.

FIG. 7 is a top front and right side isometric view of a second embodiment of a pistol cartridge in accordance with the new design in which a pistol cartridge has a bullet and a casing, in which the bullet is formed with a central cavity and two lateral bores, which cavity and bores have been filled with a polymeric filler of unspecified color, and the bullet and casing are shown in phantom outline;

FIG. 8 is a bottom plan view thereof;

FIG. 9 is a top plan view thereof;

FIG. 10 is a right side elevation view thereof, the left side view being a mirror image thereof;

FIG. 11 is a rear and left side perspective view thereof; and,
FIG. 12 is a front elevation view thereof, the rear view being a mirror image view thereof.

The broken lines shown in FIGS. 1-12 are for illustrative purposes only and form no part of the claimed design.
