(57) **CLAIM**

The ornamental design for a credit card, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a credit card showing our new design; and,
 FIG. 2 is a rear view thereof.
 The broken lines indicate unclaimed portions of the credit card that form no part of the claimed design. The top, bottom, right and left sides and thickness of the credit card are not claimed. The front and rear surfaces of the credit card are flat. The claimed features on the front surface, including the two circular features near the left side, the four racetrack-shaped features grouped together near the left side, the transparent triangular feature, the three circular rings near the lower side, and the rectangular feature above the three circular rings, are coplanar with the front surface.
