FIG. 1 is a perspective view of an infant heel incision device showing our new design as viewed from a front left-hand side of the infant heel incision device;
FIG. 2 is a perspective view of the infant heel incision device shown in FIG. 1 as viewed from a front right-hand side of the infant heel incision device;
FIG. 3 is a perspective view of the infant heel incision device shown in FIG. 1 as viewed from a top of the infant heel incision device;
FIG. 4 is a frontal view of the infant heel incision device shown in FIG. 1;
FIG. 5 is a rear view of the infant heel incision device shown in FIG. 1;
FIG. 6 is a top view of the infant heel incision device shown in FIG. 4;
FIG. 7 is a bottom view of the infant heel incision device shown in FIG. 4;
FIG. 8 is a side view as viewed from the right-hand side of the infant heel incision device shown in FIG. 4; and,
FIG. 9 is a side view as viewed from the left-hand side of the infant heel incision device shown in FIG. 4.

(Continued)

The dot-dot-dash broken lines shown in the drawings define the boundaries of the claimed design and form no part thereof.

The dashed broken lines shown in the drawings illustrate portions of the infant heel incision device that forms no part of the claimed design.
