(57) **CLAIM**

The ornamental design for a LED illuminated panel, as shown and described.

DESCRIPTION

A portion of the material in this patent document is subject to copyright protection under the copyright laws of the United States and of other countries. The owner of the copyright rights has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the United States Patent and Trademark

Office publicly available file or records, but otherwise reserves all copyright rights whatsoever. The copyright owner does not hereby waive any of its rights to have this patent document maintained in secrecy, including without limitation its rights pursuant to 37 C.F.R. § 1.14.

FIG. 1 is a front, top and right side perspective fragmentary view of a first embodiment of a LED illuminated panel showing my new design, wherein bounds for the panel of the fragmentary view are shown in broken lines which are for illustrative purposes to indicate indeterminate width only and form no part of the claimed design;

FIG. 2 is a front elevational view thereof, the rear elevational view being identical;

FIG. 3 is a left side elevational view thereof, the right side elevational view being identical;

FIG. 4 is a top plan view thereof, the bottom plan view being identical;

FIG. 5 is a front, top and right side perspective fragmentary view of a second embodiment of my new design, wherein bounds for the panel of the fragmentary view are shown in broken lines which are for illustrative purposes to indicate indeterminate width only and form no part of the claimed design;

FIG. 6 is a front elevational view of the second embodiment of FIG. 5, the rear elevational view being identical;

FIG. 7 is a left side elevational view of the second embodiment of FIG. 5, the right side elevational view being identical;

FIG. 8 is a top plan view of the second embodiment of FIG. 5, the bottom plan view being identical;

FIG. 9 is a front, top and right side perspective fragmentary view of a third embodiment of my new design, wherein bounds for the panel of the fragmentary view are shown in broken lines which are for illustrative purposes to indicate indeterminate width only and form no part of the claimed design;

FIG. 10 is a front elevational view of the third embodiment of FIG. 9, the rear elevational view being identical;

FIG. 11 is a left side elevational view of the third embodiment of FIG. 9, the right side elevational view being identical; and,

FIG. 12 is a top plan view of the third embodiment of FIG. 9, the bottom plan view being identical.

(Continued)

Broken lines in the drawings are for illustrative purposes only and do not form part of the claimed design. The areas between the break lines in the LED illuminated panel in FIGS. 1, 3, 4-5, 7-8, 11, and 12 form no part of the claimed design. Oblique line shading is used to represent transparent or translucent surfaces.

1 Claim, 6 Drawing Sheets
