(57) **CLAIM**

The ornamental design for a digital camera with display screens having graphical user interfaces, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of digital camera with display screens having graphical user interfaces showing my new design;

FIG. 2 is a rear elevational view thereof;

FIG. 3 is a top plan view thereof;

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a left side elevational view thereof;

FIG. 6 is a right side elevational view thereof;

FIG. 7 is a rear detail elevational view thereof, showing the view finder display screen;

FIG. 8 is a rear detail elevational view thereof, showing the view finder display screen with an alternate environment;

FIG. 9 is a rear elevational view of a second embodiment of the digital camera with display screens having graphical user interfaces;

FIG. 10 is a rear elevational view of a third embodiment of the digital camera with display screens having graphical user interfaces;

FIG. 11 is a rear detail elevational view thereof, showing the view finder display screen;

FIG. 12 is a rear detail elevational view thereof, showing the view finder display screen with an alternate environment;

FIG. 13 is a rear elevational view of a fourth embodiment of the digital camera with display screens having graphical user interfaces;

FIG. 14 is a rear elevational view of a fifth embodiment of the digital camera with display screens having graphical user interfaces;

FIG. 15 is a rear detail elevational view thereof, showing the view finder display screen;

FIG. 16 is a rear detail elevational view thereof, showing the view finder display screen with an alternate environment; and,

FIG. 17 is a rear elevational view of a sixth embodiment of the digital camera with display screens having graphical user interfaces.

The broken lines showing a digital camera and the remainders of the display screen having graphical user interfaces form no part of the claimed design.

1 Claim, 17 Drawing Sheets
