(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image in a sequence of the first and second embodiments; FIG. 2 is a front view of a second image of the first embodiment thereof; FIG. 3 is a front view of a third image of the first embodiment thereof; FIG. 4 is a front view of a second image of the second embodiment thereof; and, FIG. 5 is a is a front view of a third image of the second embodiment thereof. In the drawings, the broken lines are for the purpose of showing portions of the display screen with graphical user interface that form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3 and FIGS. 1, 4 and 5. The process or period in which one image transitions to another forms no part of the claimed design.
