(57) **CLAIM**

The ornamental design for the male component of enteral feeding connector, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of an enteral feeding connector male component showing my new design, the opposite top perspective view being identical;

FIG. 2 is a front view of the male component of enteral feeding connector of FIG. 1;

FIG. 3 a back view of the male component of enteral feeding connector of FIG. 1.

FIG. 4 is an elevational end view of the male component of enteral feeding connector taken from the right-hand side of FIG. 2;

FIG. 5 is an elevational end view of the male component of enteral feeding connector taken from the left-hand side of FIG. 2;

FIG. 6 is a top view of the male component of enteral feeding connector of FIG. 2; and,

FIG. 7 is a bottom view of the male component of enteral feeding connector of FIG. 2.

The broken lines immediately adjacent the shaded areas represent the bounds of the claimed design, while all other broken lines are directed to portions of the article excluded from the claim. The broken line disclosure forms no part of the claimed design.
