(57) **CLAIM**

The ornamental design for a glass nourishment device, as shown and described.

DESCRIPTION

FIG. 1 is an exploded upper perspective view of the glass nourishment device in which an exemplary lid is depicted in broken lines and shown disengaged from the jar component of the device;

FIG. 2 is another exploded upper perspective view of the glass nourishment device in which the exemplary lid is shown engaged with the jar component of the device;

FIG. 3 is an upper perspective view of the glass nourishment device, shown in an assembled condition;

FIG. 4 is an exploded lower perspective view of the glass nourishment device in which the exemplary lid is shown engaged with the jar component of the device;

FIG. 5 is an offset top view of the glass nourishment device in which the exemplary lid, jar component, and base are shown disassembled from each other;

FIG. 6 is a bottom view thereof;

FIG. 7 is an exploded side view of the glass nourishment device;

FIG. 8 is a semi-exploded side view of the glass nourishment device in which the exemplary lid is shown engaged with the jar component of the device; and,

FIG. 9 is a side view of the glass nourishment device, shown in a fully assembled condition.

The illustrative broken line showing of a lid throughout the drawing figures depicts an exemplary component of the glass nourishment device that forms no part of the present claimed design.
