(57) **CLAIM**  
 The ornamental design for a display screen with animated graphical user interface, as shown and described.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-7, 8-14, and 15-21. The process or period in which one image transitions to another forms no part of the claimed design. The outermost broken line illustrates the display screen, and the remainder of the broken lines, including the broken line showing of alphanumeric characters and envelope, illustrate portions of the animated graphical user interface. None of the broken lines form part of the claimed design.
