(57) **CLAIM**

The ornamental design for a triceps support with elbow compression sleeve, as shown and described.

DESCRIPTION

FIG. 1 is a side perspective view of a triceps support with elbow compression sleeve shown in a position of use. The broken lines showing a human arm in FIG. 1 are for the purpose of illustrating environment and form no part of the claim.

FIG. 2 is a top view of the compression sleeve of FIG. 1 shown in a position of rest with a front side of the compression sleeve being positioned above a rear side of the compression sleeve.

FIG. 3 is a top view of the compression sleeve of FIG. 1 shown in a position of rest with a rear side of the compression sleeve being positioned above a front side of the compression sleeve.

FIG. 4 is a top view of the compression sleeve of FIG. 1 shown in a position of rest with a left side of the compression sleeve being positioned above a right side of the compression sleeve.

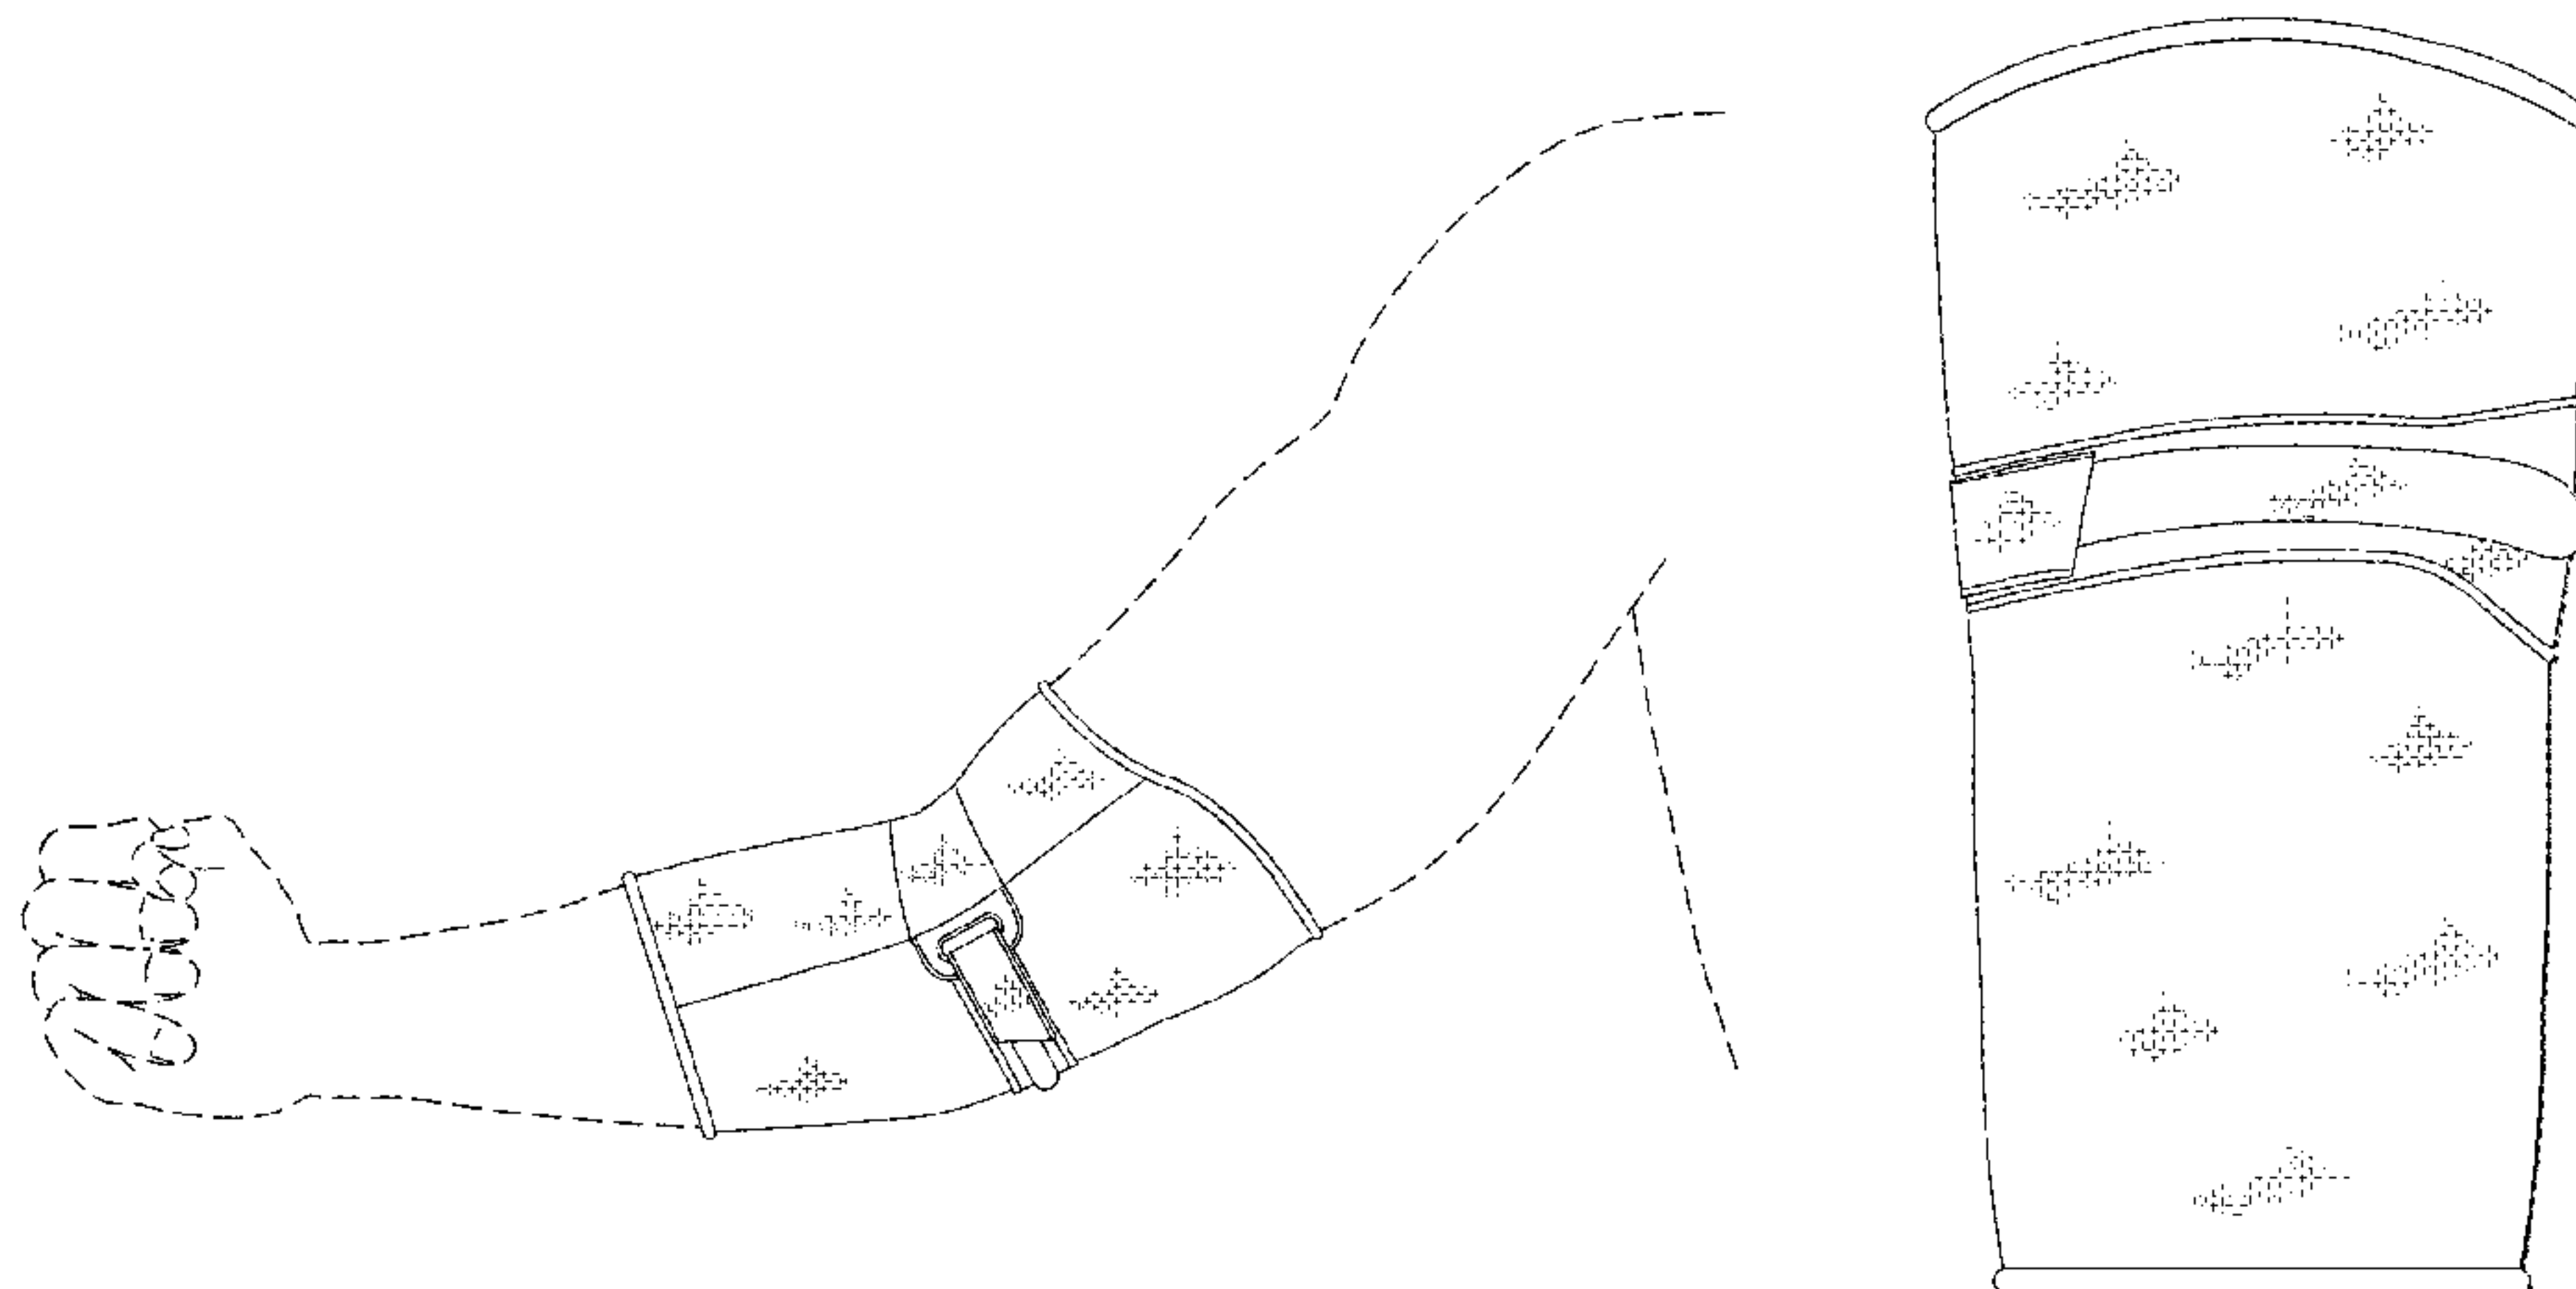

FIG. 5 is a top view of the compression sleeve of FIG. 1 shown in a position of rest with a right side of the compression sleeve being positioned above a left side of the compression sleeve.

FIG. 6 is a top view of the compression sleeve of FIG. 1 shown in an open configuration with a first opening of the compression sleeve being positioned above a second opening of the compression sleeve; and,

FIG. 7 is a top view of the elbow compression sleeve of FIG. 1 shown in an open configuration with a second opening of the compression sleeve being positioned above a first opening of the compression sleeve.

The broken lines showing a human arm in FIG. 1 are for the purpose of illustrating environment and form no part of the claim.

1 Claim, 4 Drawing Sheets
