The ornamental design for a vehicle rear fascia, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the vehicle rear fascia; FIG. 2 is a left side elevation view thereof (where the right side elevation view of the vehicle rear fascia is omitted since the right side elevation view is substantially identical to the left side elevation view with the exception that the right side elevation view would have the broken-line rectangular feature depicted in FIG. 1); FIG. 3 is a top plan view thereof; and, FIG. 4 is a front view thereof. The broken lines shown in the drawings depict portions of the vehicle rear fascia that form no part of the claimed design.
