*Primary Examiner* — Charles Hanson

(57) **CLAIM**

The ornamental design for a dental fiberpost, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a first embodiment of a dental fiberpost for use in a dental root canal showing the new design for a dental fiberpost.

FIG. 2 is a front view thereof;

FIG. 3 is a rear view thereof;

FIG. 4 is a right view thereof; the left side view is a mirror image of the right side view;

FIG. 5 is a top view thereof; and

FIG. 6 is a bottom view thereof.

FIG. 7 is a perspective view of a second embodiment of a dental fiberpost, having a larger diameter than the first embodiment, showing the new design for a dental fiberpost.

FIG. 8 is a front view thereof;

FIG. 9 is a rear view thereof;

FIG. 10 is a right view thereof; the left side view is a mirror image of the right side view;

FIG. 11 is a top view thereof; and

FIG. 12 is a bottom view thereof.

FIG. 13 is a perspective view of a third embodiment of a dental fiberpost, having a larger diameter than the second embodiment, showing the new design for a dental fiberpost.

FIG. 14 is a front view thereof;

FIG. 15 is a rear view thereof;

FIG. 16 is a right view thereof; the left side view is a mirror image of the right side view;

FIG. 17 is a top view thereof; and

FIG. 18 is a bottom view thereof.

FIG. 19 is a perspective view of a fourth embodiment of a dental fiberpost, having a larger diameter than the third embodiment, showing the new design for a dental fiberpost.

FIG. 20 is a front view thereof;

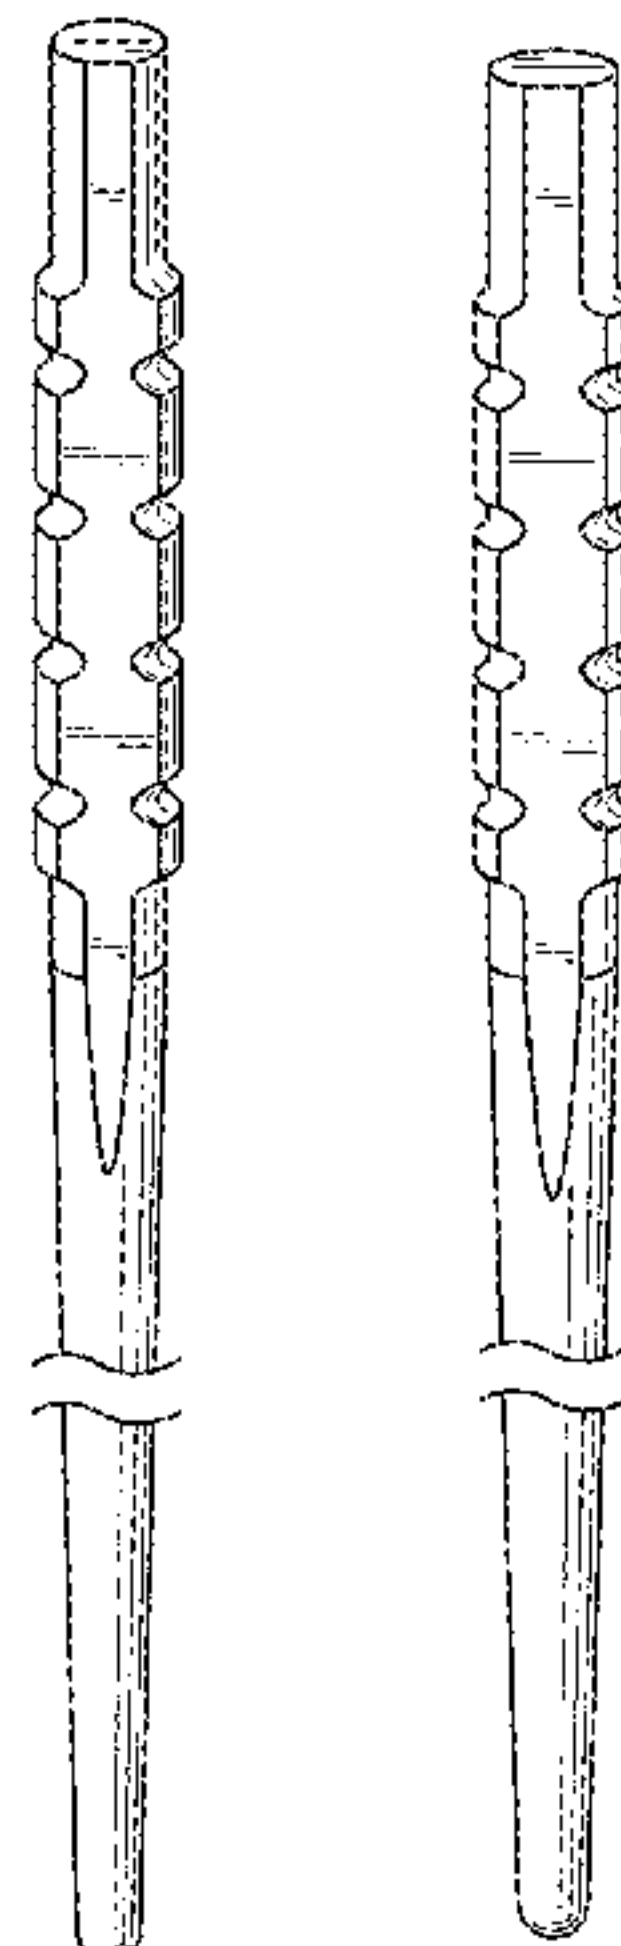

FIG. 21 is a rear view thereof;

FIG. 22 is a right view thereof; the left side view is a mirror image of the right side view;

FIG. 23 is a top view thereof; and,

FIG. 24 is a bottom view thereof.
