(57) **CLAIM**

We claim the ornamental design for a pet feeding system, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a pet feeding system, according to our new design, in an assembled configuration; FIG. 2 is a top view thereof; FIG. 3 is a front view thereof; FIG. 4 is a rear view thereof; FIG. 5 is a right side view thereof, a left side view being a mirror image of the right side view; FIG. 6 is a top perspective view of the stand component of the pet feeding system, the stand being shown disassembled from bowls and a mat, which, with the stand, comprise the assembled pet feeding system; FIG. 7 is a top view thereof; FIG. 8 is a front view thereof; FIG. 9 is a rear view thereof; FIG. 10 is a right side view thereof, a left side view being a mirror image of the right side view; FIG. 11 is a top perspective view of the mat component of the pet feeding system, in accordance with a first embodiment, the mat shown disassembled from the bowls and the stand, which, with the first embodiment of the mat, constitute a first embodiment of the assembled pet feeding system; FIG. 12 is a top view thereof;

FIG. 13 is a front view thereof; FIG. 14 is a rear view thereof; FIG. 15 is a right side view thereof, a left side view being a mirror image of the right side view; FIG. 16 is a top perspective view of the bowl component of the pet feeding system, the bowl being shown as disassembled from the other components of the pet feeding system, two such bowls, the stand and a mat constituting the assembled pet feeding system of a first embodiment; FIG. 17 is a top view thereof; FIG. 18 is a right side view thereof, a left side view being a mirror image of the right side view; FIG. 19 is a rear view thereof; FIG. 20 is a cross-sectional view of the bowl taken substantially on line 20-20 of FIG. 16; FIG. 21 is a cross-sectional view of the bowl taken substantially on line 21-21 of FIG. 16; FIG. 22 is a top perspective view of a second embodiment of the mat component of the pet feeding system, the mat shown disassembled from the bowls and stand of the pet feeding system, a second embodiment of the assembled pet feeding system constituted by the bowls, the stand and the second embodiment of the mat; FIG. 23 is a top view thereof; FIG. 24 is a front view thereof; FIG. 25 is a rear view thereof; FIG. 26 is a left side view thereof, a right side view being a mirror image of the left side view; FIG. 27 is a transverse sectional view thereof, taken substantially along line 27-27 of FIG. 22; and, FIG. 28 is a front-to-back sectional view thereof, taken substantially along line 28-28 of FIG. 22. In the drawings, modeling lines have been used to illustrate curved surfaces. Broken lines have been used to depict, for purposes of illustration, elements of the pet feeding system which form no part of the claimed design. The bottom surfaces of the pet feeding system and its components which are not shown, are unadorned and form no part of the claimed design.
