(57) **CLAIM**

The ornamental design for a front bumper side air dam for a vehicle, as shown and described.

DESCRIPTION

This application contains subject matter related to the following co-pending U.S. design patent applications:

Application No. 29/572,848, filed Aug. 1, 2016 and entitled "Truck Cab, Toy, and/or Replicas thereof."

FIG. 1 is a front and left side perspective view of a front bumper side air dam for a vehicle showing our new design in accordance to a first embodiment;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a right side elevational view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a front elevational view thereof, as installed on a front fascia portion of an exemplary vehicle;

FIG. 7 is a front and right side perspective view of a front bumper side air dam for a vehicle showing our new design in accordance to a second embodiment;

FIG. 8 is a front elevational view thereof;

FIG. 9 is a left side elevational view thereof;

FIG. 10 is a top plan view thereof;

FIG. 11 is a bottom plan view thereof; and,

FIG. 12 is a front elevational view thereof, as installed on a front fascia portion of an exemplary vehicle.

The broken line showing of the front fascia of an exemplary vehicle and portions of the front bumper side air dam are provided for the purposes of illustrating both environmental structure and elements of the article that do not form part of the claimed design.
