The ornamental design for a tire tread, as shown and described.

DESCRIPTION

FIG. 1 is a side perspective view of a tire tread showing my new design, it being understood that the pattern is repeated throughout the circumference of the tire tread, the opposite side being the same as that shown.

FIG. 2 is a front elevational view thereof, the opposite side being identical thereto;

FIG. 3 is a side elevational view of the right side thereof;

FIG. 4 is a side elevational view of the left side thereof; and,

FIG. 5 is an enlarged fragmentary front elevational view thereof.

The claim is limited to the shaded elements defined by solid lines in the drawings. The broken lines defining the sidewall, inner bead, and the peripheral boundary between the claimed tire tread and the sidewall depict environmental subject matter that forms no part of the claimed design.
