The ornamental design for a wireless remote control, as shown and described.

DESCRIPTION

Fig. **1.1** is a front elevation view of a wireless remote control showing the new design in a first embodiment.
Fig. **8.1** is a front elevation view of a wireless remote control showing the new design in a second embodiment.
Fig. **13.1** is a front elevation view of a wireless remote control showing the new design in a third embodiment.
Fig. **19.1** is a front elevation view of a wireless remote control showing the new design in a fourth embodiment.
Fig. **25.1** is a front elevation view of a wireless remote control showing the new design in a fifth embodiment.
All the dark circular features shown on front of the remote control of the invention are coplanar with the major front surface.
