(57) **CLAIM**

The ornamental design for a mobile tablet display screen with animated graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of the first image in a sequence for a mobile tablet display screen with animated graphical user interface showing our new design; and, FIG. 2 is a front view of the second image in a sequence for a mobile tablet display screen with animated graphical user interface showing our new design.

The outer broken lines illustrate a mobile tablet. The broken line at the perimeter of the figure illustrates a display screen, and the remainder of the broken lines illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.

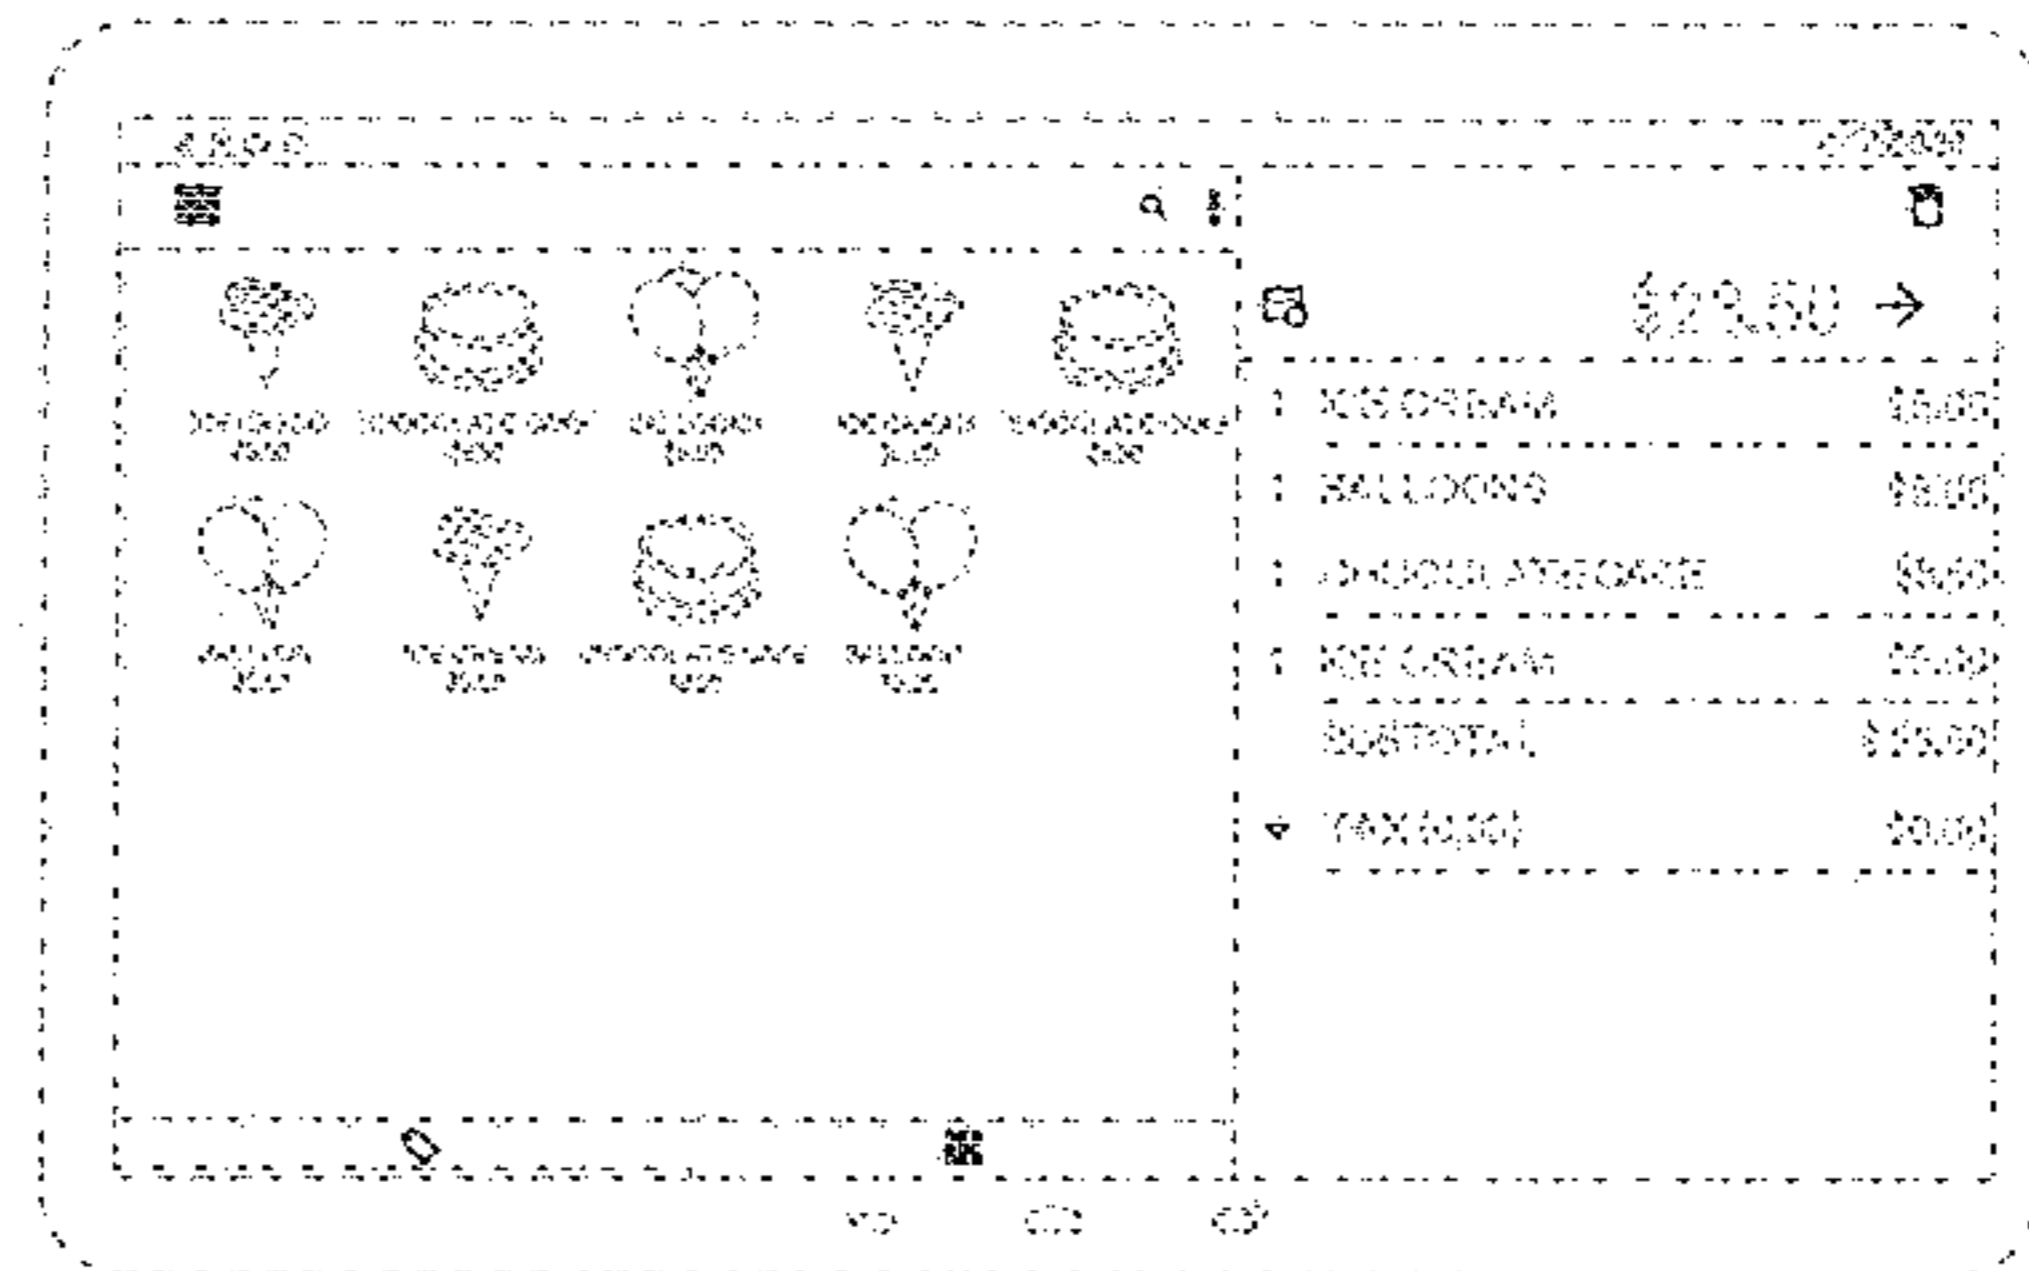

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 and 2. The process or period in which one image transitions to another image forms no part of the claimed design.
