G01V 5/0016

See application file for complete search history.

FIG. 1 is a first perspective view of a human body safety inspection instrument, showing our new design. FIG. 2 is a second perspective view thereof. FIG. 3 is a right side elevational view thereof. FIG. 4 is a left side elevational view thereof. FIG. 5 is a front elevational view thereof. FIG. 6 is a rear elevational view thereof; and, FIG. 7 is a top plan view thereof.

The broken lines shown in FIGS. 1-2 and 5-6 illustrate optional surface ornamentation for the human body safety inspection instrument that forms no part of the claimed design. A bottom plan view of the human body safety inspection instrument is not normally seen during use and forms no part of the claimed design, has therefore been omitted.
