Primary Examiner — Abraham Bahta

(57) **CLAIM**

The ornamental design for a bag array, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of an embodiment of the bag array of the invention;
FIG. 2 is a front view thereof;
FIG. 3 is a left side view, the right side view being a mirror image thereof; and,
FIG. 4 is a bottom view, the top view being a mirror image thereof.

The broken lines formed by dashes of even length arranged in groups of five and separated by spaces in FIGS. 1 and 2 represent a cut or separation line, which is part of the design. The broken away portions shown in FIGS. 1-3 indicate that the bag array has no specific length.
