(57) **CLAIM**

We claim the ornamental design for a display screen with graphical user interface for a controller of a functional neuroimaging system, as shown.

DESCRIPTION

FIG. 1 is a front elevational view of a display screen with graphical user interface for a controller of a functional neuroimaging system showing our new design; FIG. 2 is a rear side elevational view thereof; FIG. 3 is a right side elevational view thereof; FIG. 4 is a left side elevational view thereof; FIG. 5 is a top plan view thereof; and, FIG. 6 is a bottom plan view thereof.

The asterisks and the broken lines between the asterisks appearing on the display screen in FIG. 1 form part of the claimed design. The broken lines showing a controller of a functional neuroimaging system are for the purpose of illustrating environmental structure and form no part of the claimed design.

1 Claim, 6 Drawing Sheets
