(57) **CLAIM**

The ornamental design for a display screen or a portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image of a first embodiment of a display screen or a portion thereof with an animated graphical user interface;

FIG. 2 is a second image of the first embodiment of a display screen or a portion thereof with an animated graphical user interface;

FIG. 3 is a third image of the first embodiment of a display screen or a portion thereof with an animated graphical user interface;

FIG. 4 is a fourth image of the first embodiment of a display screen or a portion thereof with an animated graphical user interface;

FIG. 5 is a first image of a second embodiment of a display screen or a portion thereof with an animated graphical user interface;

FIG. 6 is a second image of the second embodiment of a display screen or a portion thereof with an animated graphical user interface;

FIG. 7 is a third image of the second embodiment of a display screen or a portion thereof with an animated graphical user interface;

FIG. 8 is a fourth image of the second embodiment of a display screen or a portion thereof with an animated graphical user interface;

FIG. 9 is a first image of a third embodiment of a display screen or a portion thereof with an animated graphical user interface;

FIG. 10 is a second image of the third embodiment of a display screen or a portion thereof with an animated graphical user interface;

(Continued)

FIG. 11 is a third image of the third embodiment of a display screen or a portion thereof with an animated graphical user interface; and,

FIG. 12 is a fourth image of the third embodiment of a display screen or a portion thereof with an animated graphical user interface.

The outermost broken lines illustrate a display screen or portion thereof and form no part of the claimed design. The remaining broken lines, illustrating portions of the graphical user interface, form no part of the claimed design.

The appearance of the image transitions sequentially between the images shown in FIGS. 1 through 4; FIGS. 5 through 8; and FIGS. 9 through 12. The process or period in which one image transitions to another forms no part of the claimed design.
