The ornamental design for a beverage dispenser assembly, as shown and described.

### DESCRIPTION

Portions of the present disclosure may contain materials which are subject to copyright or trademark protection. The copyright and trademark owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the U.S. Patent and Trademark Office patent file or records, but otherwise reserves all copyright and trademark rights whatsoever. FIG. 1 is a perspective view of a first embodiment of a beverage dispenser assembly. FIG. 2 is a perspective view thereof. FIG. 3 is an exploded perspective view of the components of the beverage dispenser assembly of FIG. 1. FIG. 4 is a left side elevational view of the beverage dispenser assembly of FIG. 1. FIG. 5 is a right side elevational view thereof. FIG. 6 is a front side elevational view of thereof. FIG. 7 is a back side elevational view of thereof. FIG. 8 is an exploded left side elevational view of the components of the beverage dispenser assembly; and, FIG. 9 is an exploded cross sectional view of the components of the beverage dispenser assembly depicted in FIG. 8, where the cross sectional plane of view in FIG. 9 is indicated by the dashed line and arrows in FIG. 8. The broken line features shown in the Figures are for the purpose of illustrating features of the beverage dispenser assembly that form no part of the claimed design.

A47J 31/20; A47J 4/025 See application file for complete search history.
