(57) **CLAIM**

The ornamental design for a display screen portion with graphical user interface for a healthcare command center computing system, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen portion with graphical user interface for a healthcare command center computing system, showing the new design.

The broken line showing of the display screen and graphical user interface are included for the purpose of illustrating environmental structure and portions of the article and form no part of the claimed design.

1 Claim, 1 Drawing Sheet
