(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface showing my new design, according to a first embodiment.

FIG. 2 is a front view of a display screen with graphical user interface showing my new design, according to a second embodiment.

FIG. 3 is a front view of a display screen with graphical user interface showing my new design, according to a third embodiment.

FIG. 4 is a front view of a display screen with graphical user interface showing my new design, according to a fourth embodiment.

FIG. 5 is a front view of a display screen with graphical user interface showing my new design, according to the first embodiment. FIGS. 1 and 5 differ based on broken line content.

FIG. 6 is a front view of a display screen with graphical user interface showing my new design, according to the first embodiment. FIGS. 1, 5, and 6 differ based on broken line content; and,

FIG. 7 is a front view of a display screen with graphical user interface showing my new design, according to the first embodiment. FIGS. 1, 5, 6, and 7 differ based on broken line content.

The solid-line curved rectangle illustrates the perimeter of the display screen. The broken lines within this perimeter illustrate portions of a graphical user interface. The broken lines outside this perimeter illustrate a portion of a steering
