(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

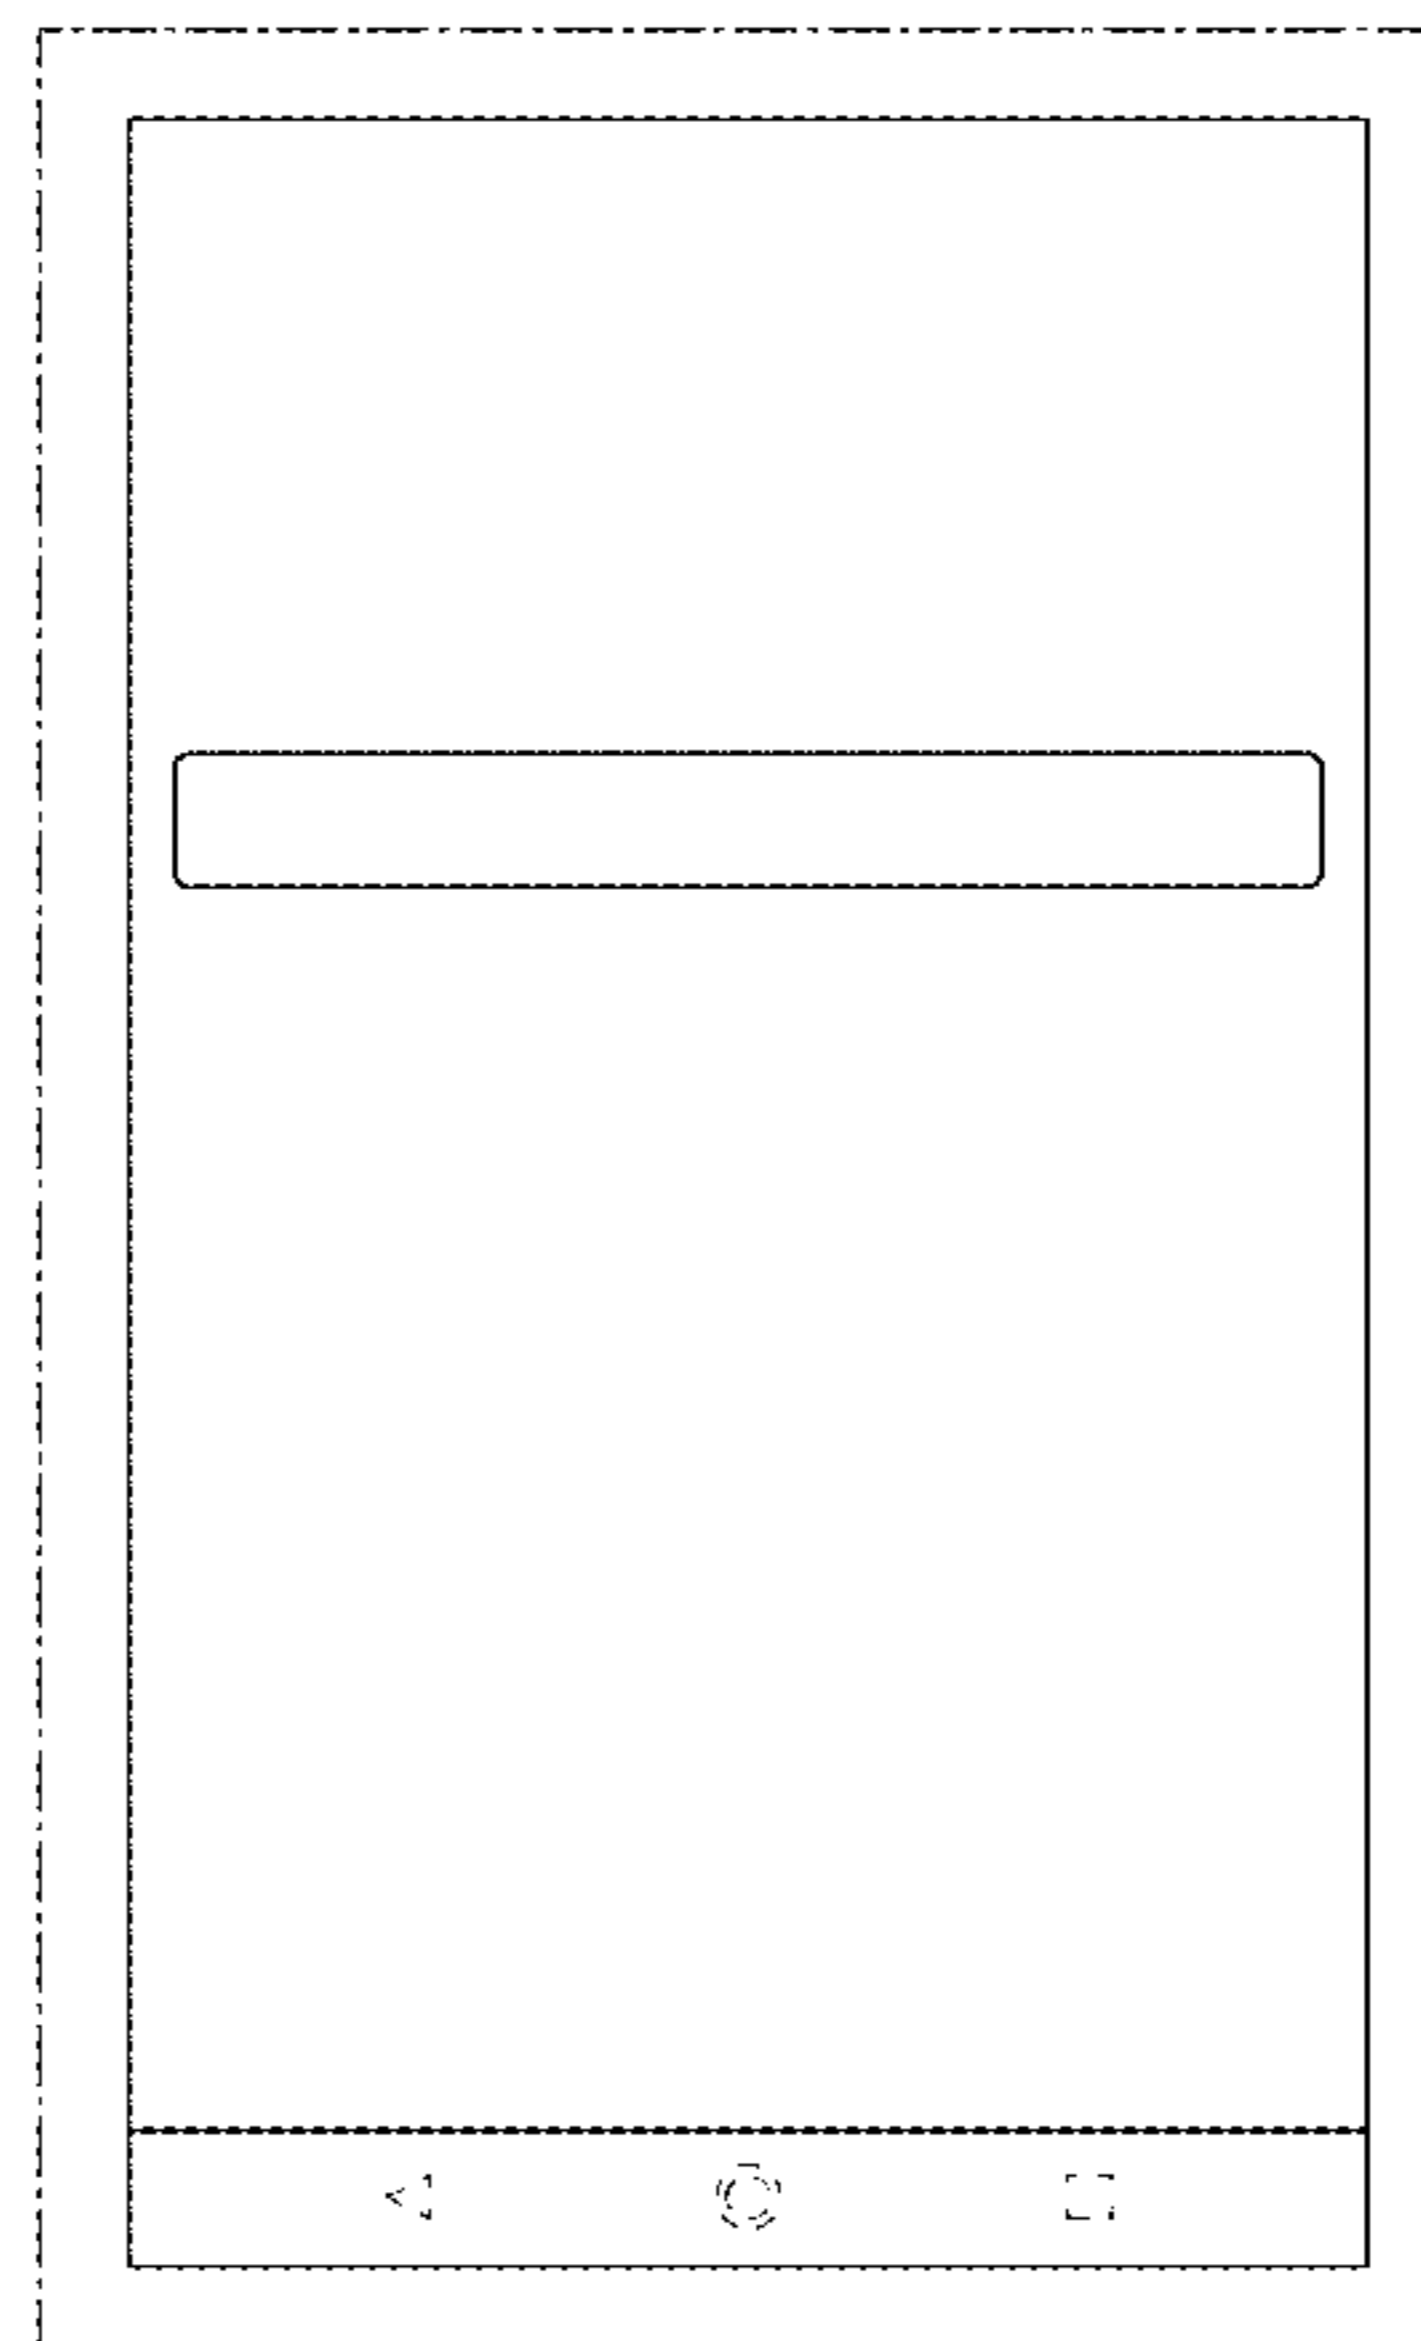

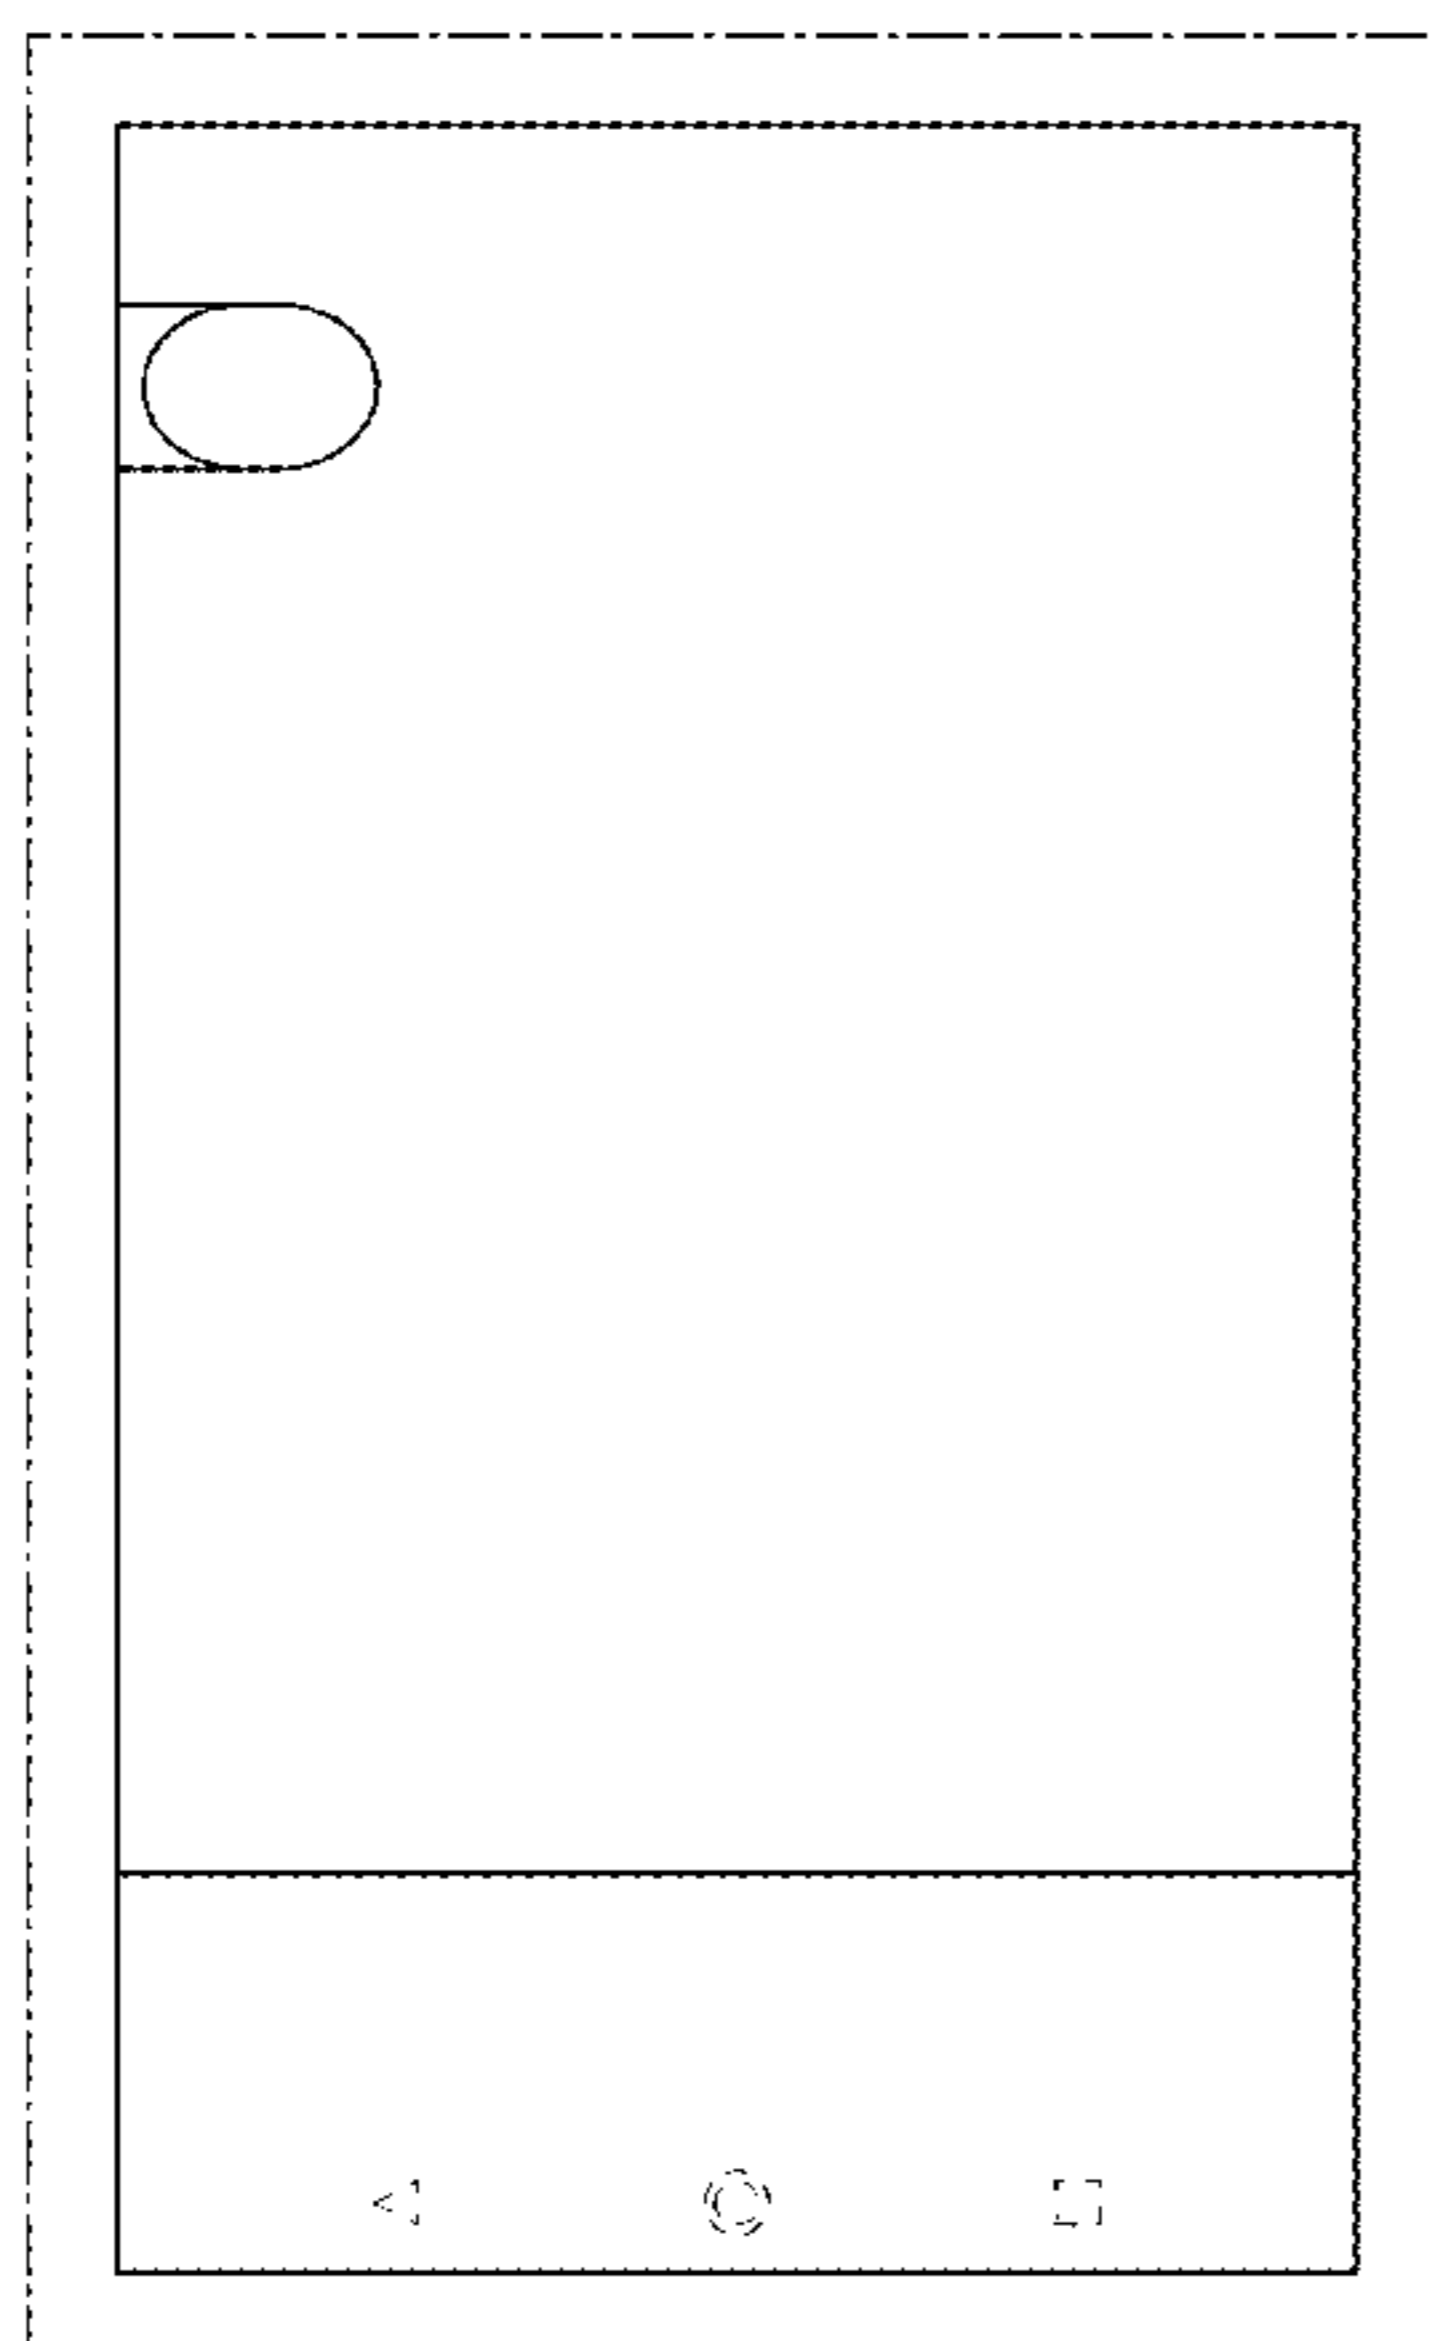

DESCRIPTION

FIG. 1 is a first image in a sequence of a display screen with animated graphical user interface, showing our new design; FIG. 2 is a second image thereof; FIG. 3 is a third image thereof; and, FIG. 4 is a fourth image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines of uneven length show the display screen and form no part of the claimed design. The broken lines of even length shown in the drawing illustrate portions of the display screen with animated graphical user interface that form no part of the claimed design.
