(57) **CLAIM**

The ornamental design for a portion of a display panel with a graphical user interface for navigating imagery, as shown and described.

DESCRIPTION

FIG. 1 shows a detail of FIG. 2, enlarged and separate from the display panel for clarity of illustration; and, FIG. 2 shows a front view of a portion of a display panel with a graphical user interface for navigating imagery, according to an embodiment of the new design. The two outer broken line rectangles in FIG. 2 showing a display panel, and all other broken lines showing portions of the graphical user interface, are included for the purpose of illustrating environmental structure and portions of the article and form no part of the claimed design.
