(57) **CLAIM**

The ornamental design for a garment, as shown and described.

**DESCRIPTION**

FIG. 1 is a front, left perspective view of a garment that is in an in-use configuration showing a first embodiment of the present design;

FIG. 2 is a front view thereof;

FIG. 3 is a side view thereof;

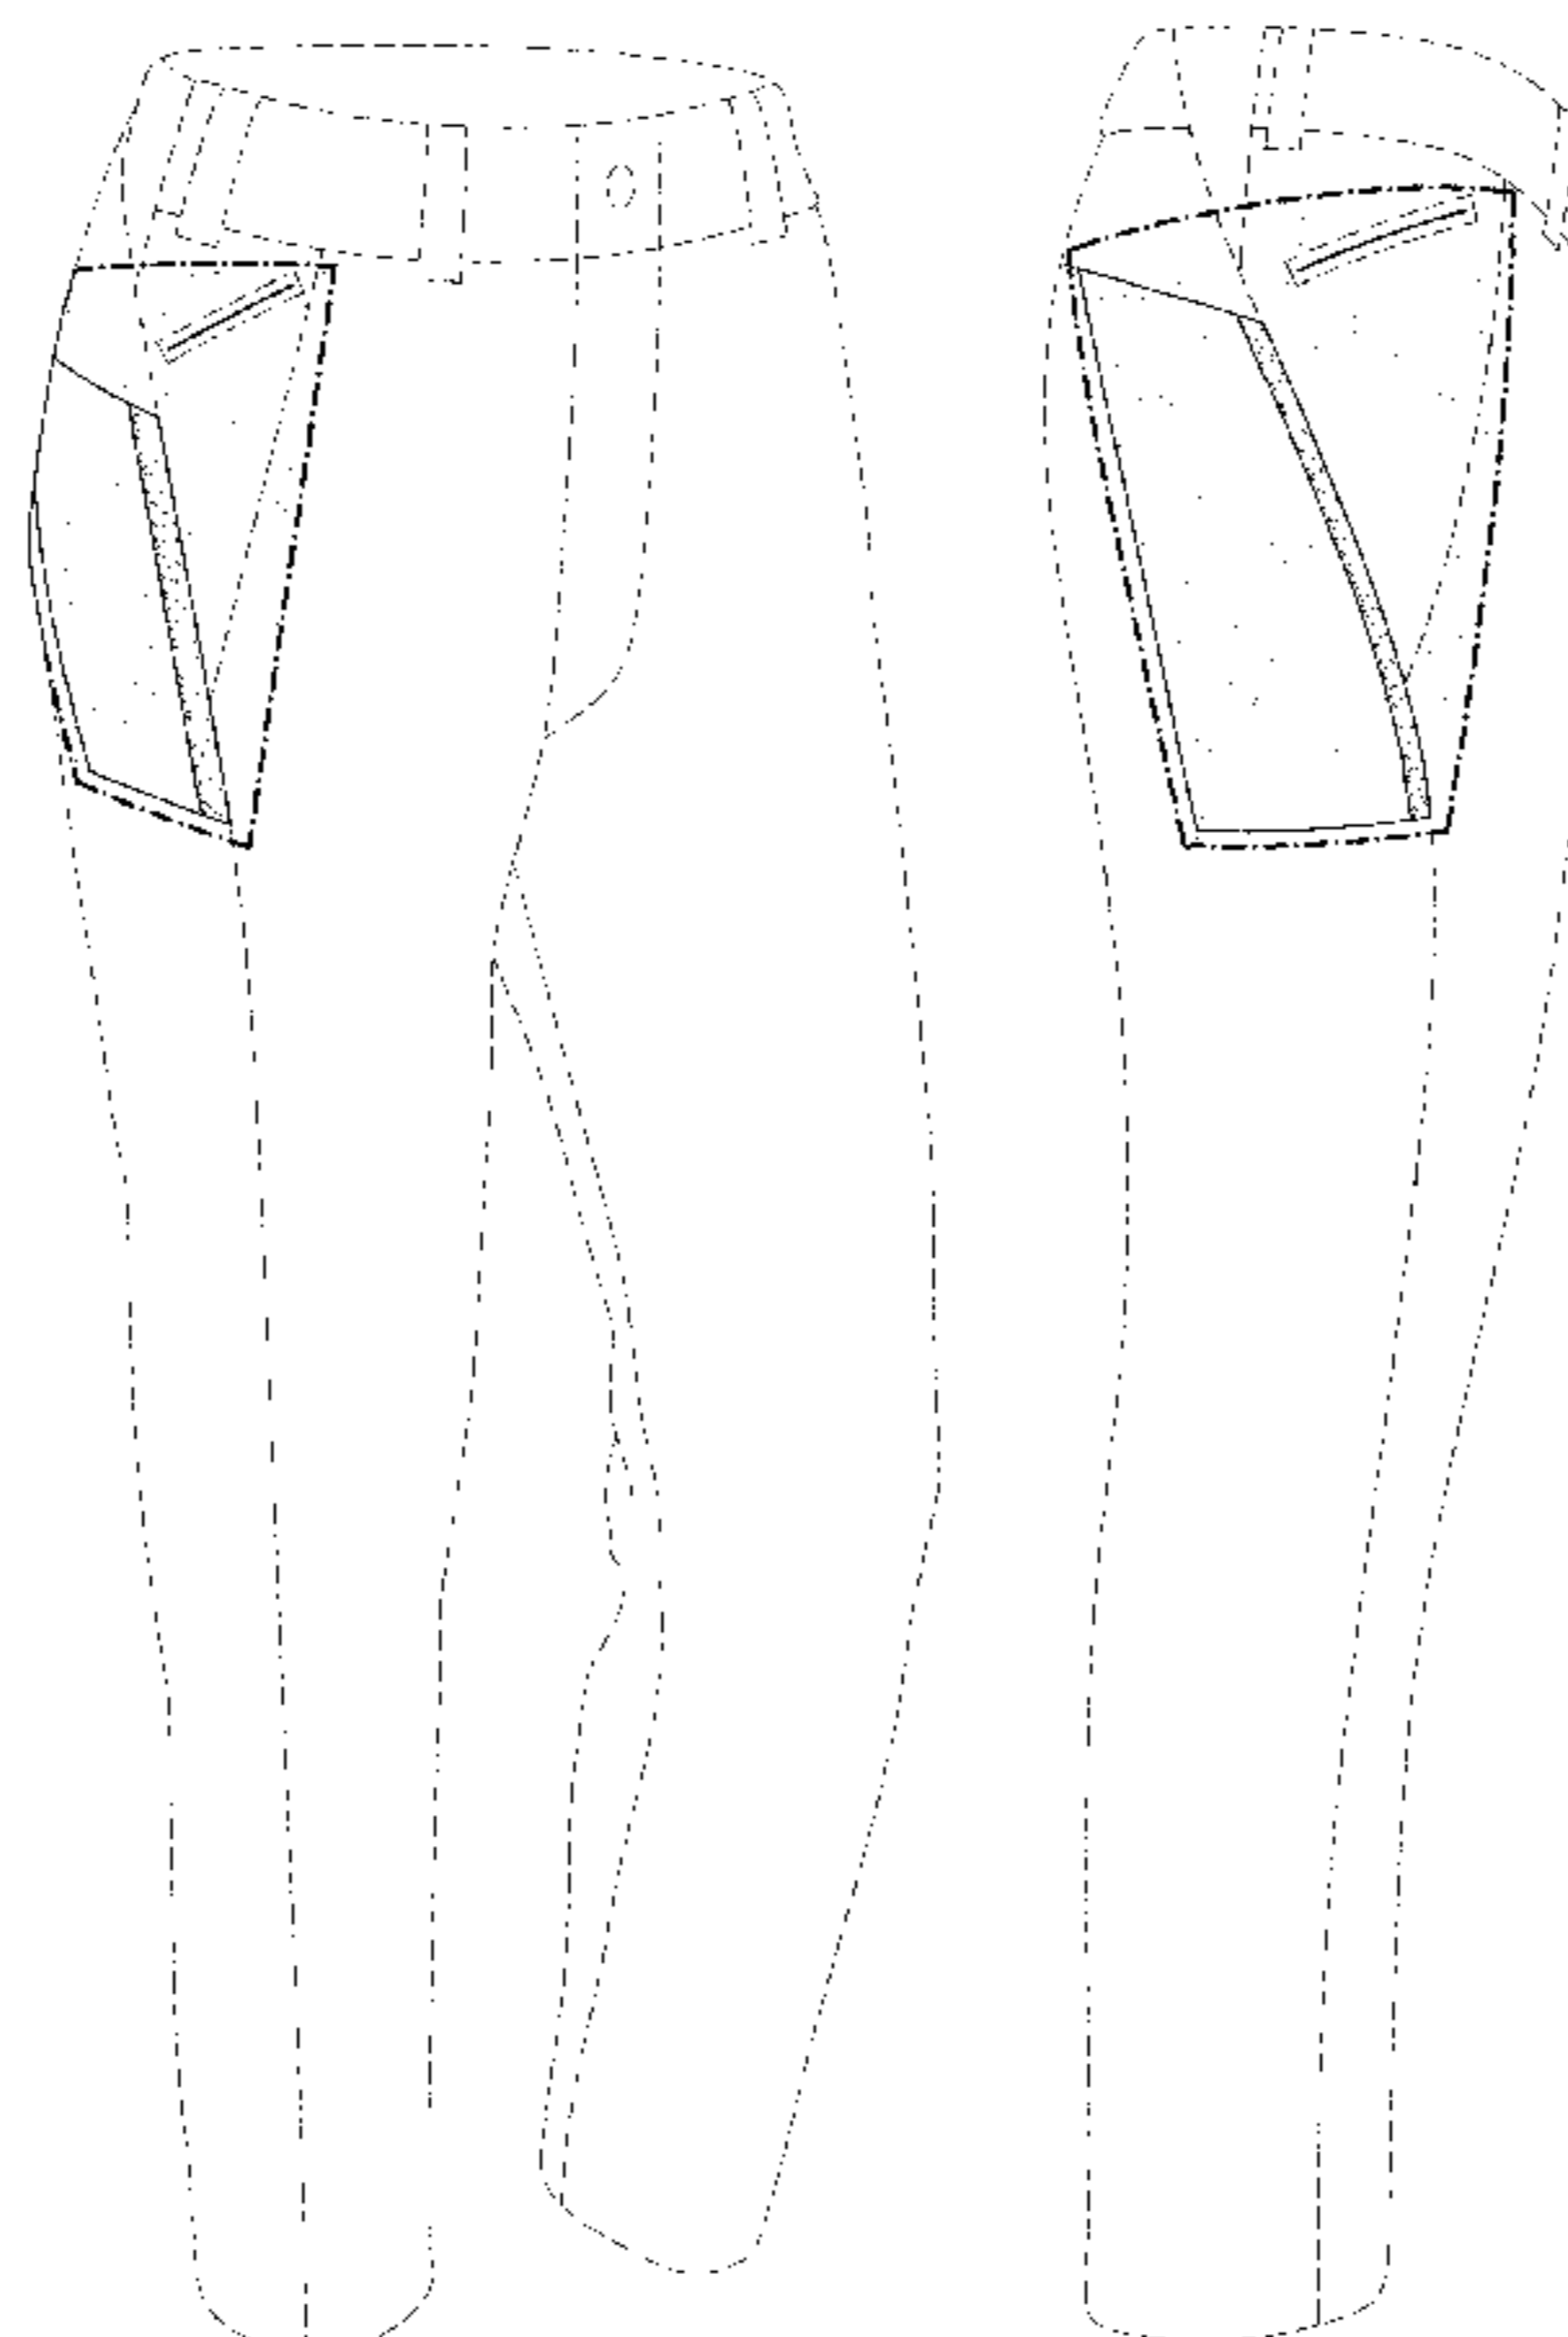

FIG. 4 is a second side view thereof;

FIG. 5 is a back view thereof; and,

FIG. 6 is an isolated view of the claimed area, wherein the claimed area is depicted in a laid-flat configuration.

The broken lines with alternating dashes and dots, immediately adjacent to the shaded area, represent unclaimed boundaries of the design. The unshaded regions, demarcated by broken lines, represent unclaimed portions of the garment and form no part of the claimed design. The broken lines, which include even-length segments, that show the remainder of the garment or that are within the shaded area, are for environmental purposes only and form no part of the claimed design. The contrast shading on the claimed portion is provided only to indicate the character and/or any contour or curvature of the surfaces. It does not indicate color, texture, markings that actually exist thereon, indicia, graphic representations, surface treatment, or any other ornamentation applied to the article.
