(57) **CLAIM**
The ornamental design for a shoe upper, as shown and described.

DESCRIPTION
FIG. 1 is a front, lateral-side perspective view of a shoe upper showing my new design;
FIG. 2 is lateral-side view thereof; and,
FIG. 3 is a rear, lateral-side perspective view thereof.
The evenly spaced broken lines showing a shoe in the drawings are directed to environment and form no part of the claimed design. The long and short broken lines are boundary lines which define the bounds of the claimed design. These boundaries do not exist in reality in the article embodying the design, but it is understood that the claimed design extends to these boundaries but does not include the boundaries.
